43 MEN GO DOWN WITH LOST BOAT

Entire Crew of Sunken British Submarine Believed Dead

ROUGH SEA BALKS RESCUE

Vessel Sent to Bottom When Rammed by Dreadnaught

LONDON — (Associated Press) — The British submarine L-24, rammed by the dreadnaught Resolution yesterday is lying thirty fathoms deep about eleven miles south of Portland Bill, according to the latest reports from Weymouth. There is nothing to indicate that her crew of 43 men have not perished.

All the men were below when the boat left Portland for the maneuvers in which she was to take part as the weather was too heavy to allow them to remain on deck, it is said.

Until further investigation has been made it is impossible to tell just how the disaster happened. However the latest report says that the L-24 rose beneath the dreadnaught and struck the latter's bows.

Last night was unusually dark and despite the numerous searchlights brought into play little could be done until daylight, but the salvage craft kept busy while special boats equipped with hydrophones tried vainly to catch any sound that might be made by the imprisoned men.

CONFIDENCE IN CHIEF

Hope of the crew's safety has not been entirely abandoned, yet most experts think it will be miraculous if the men are rescued. The submarine's commander, Lieutenant Commander Eddis, was a man of rich experience and there is confidence that he would know what to do in the tragic circumstances.

Commander Eddis had a close call during the war as junior officer of the submarine E-13, when that craft grounded on the coast of the Danish Island Saltholm in 1915. German destroyers arrived and opened fire and the E-13 was seen ablaze. The commander ordered the crew to swim ashore. Nearly all were shot down by the Germans. Lieutenant Commander Eddis, one of the few men to escape, was interned in Denmark.

It is reported but not confirmed that the submarine K-12, badly damaged in a collision with the K-2 at the scene of the L-24 disaster, is sunk in shallow water.

RESCUE WORK HALTED

PORTLAND, England — (Associated Press) — An object believed to be the British submarine L-24 which met disaster off this coast yesterday in a collision with the dreadnaught Resolution has been located off the coast at a depth of thirty fathoms, according to official reports.

A heavy sea was running this morning so that it was impossible for divers to descend to investigate. If the bad weather continues efforts will be made to drag the submarine into shallower water with grappling hooks.

REFUSES REWARD

Only Doing Duty in Finding Girl, Policeman Says

LOS ANGELES — (Associated Press) — Wealthy Eveline Bajour, 16, disappeared from her home a week ago. Al Markwell offered a reward of [illegible] for information revealing her whereabouts. Patrolman Herbert H. Wheatley found the girl while walking his beat and returned her to her parents but refused the reward, explaining he had only done his duty as patrolman.

AUTO TAG LIMIT DATE EXTENDED TO FEB. 1

Continued congestion at automobile headquarters due to increase of automobile owners brought announcement from the secretary of state that an additional time extension until Feb. 1 has been granted for purchase of 1924 license tags.

The early shipment of tags by the state automobile department to automobile clubs and unprecedented demand for more time before enforcement of the 1924 license law has caused the department to extend the time from January 1 to the end of the month.

BRIDGE MENACED BY FLOOD

Bellefontaine-av Structure is Attacked by High Water

WHOLE STRUCTURE MAY GO

Current Swollen by Heavy Rains Races Thru Small Channel

Supports of the temporary bridge constructed by the Lima City Street Railway Co. over the Ottawa river at Bellefontaine-av, were swept away late Thursday by the swollen water of the river.

Orders were given at once to halt the operation of both city and interurban cars over the bridge, and traffic on the Bellefontaine-av city line and the Lima-Springfield traction lines was stopped.

It is only a question of time, the workmen said, until the bridge will go out, and they want to avoid any possible loss of life.

FLOOD LEVEL

The highest water level reached in 11 years, since the disastrous flood of 1913, was reached Friday morning. Ice floes and logs were tossed about in the current with seemingly reckless abandon until the stream looked like a miniature of the gorge below Niagara Falls.

The trestle is the property of the street railway company which erected it while the new bridge across the river is under construction. The only reason, according to engineers, why the entire structure is not washed away is that the piles are driven into the rock bottom to a great depth. Had the bottom been of any other material, the whole bridge would have gone down.

The current is higher and the stream swifter than it has been since the 1913 flood, Charles Garmhausen, of the Lock Two Grain and Milling Company declared. His mill office overhangs the river.

PASSENGERS TRANSFERRED

All passengers, on both interurban and city lines, are taken to the approach of the bridge and transferred to other cars on the opposite side.

The High-st bridge faces the same predicament, with the exception that there was no trestle, and the first span which is already constructed is apparently safe.

Cofferdams constructed above the bridge, narrowed the channel by many feet, and the added force of the water shut into the comparatively narrow channel, is believed to to have caused the destruction. The speed of the current was estimated at 12 miles per hour, which is considered a strong current.

PANIC IN TWO THEATRES PREVENTED BY ACTORS

CHICAGO — Presence of mind of Sam Bernard, noted comedian, and Posetta Duncan, comedian, prevented threatened panics in two theaters, following a fire in the Loop last midnight.

Dense clouds of smoke rolled into the Colonial and Selwyn theatres. The audience in the Colonial started for the doors. Several men were hysterical.

"Wait a moment," yelled Bernard, rushing to the footlights. "There is no danger. We're not afraid. The show is going on."

This utterance calmed the playgoers, altho some of them left.

At the Selwyn, Miss Duncan was engaged in a comedy scene when the clang of fire bells and inrush of smoke startled the audience.

40 STREETS TO BE PAVED DURING YEAR

Projects for 1924 to Include 114,932 Square Yards

MAIN-ST IS BIGGEST JOB

Engineers Prepare Estimates Prior to Letting of Contracts

Plans for 1924 street paving, on the boards in the office of City Engineer Jack Jewhurst call for the laying of 114,932 square yards of paving on 40 streets.

The estimated cost has not been figured out but on an asphalt topping proposition the base and topping alone will cost $342,497.36 according to estimates of city officials. This is on a figure of $2.98 per square yard for base and asphalt topping. Brick costs $3.37 per square yard.

BIGGEST SINGLE JOB

The biggest single job is the Main-st street proposition which calls for 30,200 square yards of paving between the Pennsylvania railroad tracks and the Ottawa river.

City commissioners are in a quandary as to what topping to use some taxpayers having suggested asphalt, others concrete, others brick, others creosote wood block and some have suggested a granite apron with brick on each side of the rails and then asphalt between the rails and between the granite aprons and the outer edge of each rail.

Four of the jobs will be paid for by bond issues, these being Brice-av from Cole-st to Kenilworth-av; Jackson-st from Market to Elm-st, Main-st from the railroad tracks to the river and Wayne-st from Cole-st to Kenilworth-av. The city is to pay the entire cost of paving North-st from Tingle alley to the plant of the Lima Stone Co.

The remainder of the work is being done on petition of the majority of the property owners and they will be assessed for the cost on the per foot front basis.

LIST OF STREETS

The streets to be paved and the yardage on each street as far as the blue prints now show are as follows:

Ashton-av, Metcalf to West-sts, 3,725 square yards; Baxter-st, Ewing to Tremont-avs, 1,570 square yards, Belvedier-av, Murphy-st to Tremont-av, 1,127 square yards; Brice-av, Cole-st, to Kenilworth-av 1,248 square yards; Catalpa-av, Sugar-st to St. Johns-av, yardage not in; Central-av, Kent to Northern-av, figures not in; Circular-st, Mainto Central-av, 2,135 square yards; Cole-st, Richie to Leland-avs, 1,716 square yards; Cortlandt-av, Hamilton-av to Lot 13,575, 2,615 square yards; Elm-st, Woodlawn-av to city line 4,716 square yards.

GRIFFITH CHARGED WITH MURDER OF HUNTER GIRL

Head of Canton Manufacturing Concern Again Arrested

ENTERS NOT GUILTY PLEA

Body of Alleged Victim Found on Lonely Road

CANTON—(Associated Press) — Louis E. Griffith, 34, president of the United Machine and Manufacturing Co., was arrested this morning on a charge of first degree murder in connection with the alleged slaying of Ruth Hunter, 19 year old Canton girl whose body was found on a lonely country road near Canton on the night of January 2.

The affidavit was sworn to by Chief of Police S. A. Langel and was filed with Police Judge J. A. Bowman. The affidavit charges Griffith with the "malicious and premeditated murder" of the Hunter girl.

Griffith has been in custody of police since Tuesday morning since when he has been grilled almost constantly by police detectives. Griffith has steadily maintained his innocence of the charge and has stuck to his original story of his whereabouts on the night of January 2.

PLEADS NOT GUILTY

Immediately after the affidavit was filed Griffith was brought into court and entered a plea of not guilty. Judge Bowman then fixed the bond at $25,000. The preliminary hearing date was set for next Tuesday morning.

Thruout the procedure Griffith maintained the same calm, collected manner which has characterized his conduct since his arrest on Tuesday morning. His wife was in the court room during the arraignment, occupying a seat in the front row of the spectators. When the affidavit was read she leaned forward in her seat and appeared nervous.

The case has baffled city and county officials for more than a week. After almost a week of investigation County Coroner T. H. Shorb on Wednesday announced that the girl died from the effects of a small quantity of vaporized chloroform administered thru the nose.

In connection with the finding of a bond in a first degree murder case, court officials explained that altho unusual, it was within the power of the court to so act under a constitutional provision showing capital offenses are bailable where there is a presumption of innocence.

GIRL INJURED

NORFOLK, Ohio — Movement to discontinue strenuous exercise in the schools has been started here as the result of injuries sustained by Miss Alice Bailey at Norfolk High school yesterday. The girl fell 15 feet from the flying rings. She sustained internal injuries.

PLAN LEAP YEAR DRIVE

AKRON—(United Press)— Organized leaping began today as the leap year "go-get-'em-club" announced its 1924 offensive would center on the bachelor club.

Miss Wilda Esworthy, moving spirit of the feminine group, said the first requirement of a new member is that she "have a 'victim' in mind whom she would consider marrying should he accept her proposal."

WIFE TESTIFIES IN LOVE SUIT

New York Woman Charges Alienation of Affections

BALLASTON SPA, N. Y. — (Associated Press) — Mrs. Ernest Ballou, who is suing Mrs. Leland Sterry, widow of a Palm Beach hotel proprietor, for $50,000 charging alienation of her husband's affections, is expected to resume the witness stand today at the trial here. She testified yesterday as to changes in her husband's habits after he became Mrs. Sterry's chauffeur.

She said he never drank nor smoked and always came home until May 1922 when he began staying out late. She found his pajamas in the Sterry garage, she said, scented Mrs. Sterry's perfume on his clothing and heard him, awake and a leep of "his Sterry."

When she wrote him letters asking him to return to his family she testified Mrs. Sterry telephoned her saying:

"Stop interfering with my chauffeur."

CRIMINAL COURT CLERK RESIGNS HER POSITION

Resignation of Miss Esther D. Heffner as clerk of Lima criminal court, effective Feb. 1, was announced Friday by Judge Neil R. Poling. Miss Heffner is to accept a position with the Lewis-Copeland Construction Co. with offices in the American Bank building.

Simultaneous with the resignation of Miss Heffner, an announcement that he would seek a salary increase for the clerkship was made by Judge Poling who will confer with City Manager Bingham and county commissioners to place the salary on an even basis with that paid to other city clerks.

FIFTH LETTER IS SENT SEEKING EARLY ACTION

WOMEN DEMAND NEW RIGHTS

NEW ORLEANS—(Associated Press)—Business women of New Orleans have demanded of the New Orleans Association of Commerce equal barber shop rights with men and the commercial organization has passed the buck to the locals of the barbers' union and the Master Barbers' Association. The committee which called upon officials of the Association of Commerce explained that the women want snappy service and barber shop prices, not the customary taxation of the beauty parlors.

"With the shops open to 'em," said one barber shop proprietor when he heard of the demand, "the last stronghold of man will have disappeared."

MOTHER AND SON ARE BURNED

Mrs. Sam Early Injured as She Saves Youth's Life

BOTH TAKEN TO HOSPITAL

Fire Department Extinguishes Blaze Caused by Blast

Clyde Early, 10, of 133 E. Wayne-st, is at City hospital suffering severe burns sustained in a coal stove explosion at 5:30 p. m. Thursday at his home.

Mrs. Sam Early, his mother, returned to her home Thursday night from the City hospital after treatment for painful burns on her left arm, sustained when she extinguished the flames that enveloped and threatened the life of her son.

STOVE EXPLODES

A small stove in the kitchen of the Early home exploded when when Clyde poured oil on a smoldering fire. In the blast that followed flames enveloped the boy and as he started to run from the house with his clothing a mass of flames, Mrs. Early grabbed him and smothered the fire with a rug which she thoughtfully pulled from the floor.

Mrs. Early suffered severe burns on her left arm in saving the life of her son who is recovering from severe burns on the left side of his face and left arm.

Both were taken to City hospital immediately after the explosion. Mrs. Early returned home after receiving medical attention but the boy remained at the hospital.

Fire department responded to a fire call and extinguished the blaze before it spread. No damage was caused.

Increases in the various grades of crude oil thruout the country are given as the reason for the increase in price.

PLANS TO WIPE OUT ILLITERACY DISCUSSED

WASHINGTON — A four day conference to discuss methods for wiping out illiteracy opened at the interior department today under the combined auspices of the Bureau of Education, National Education Association, General Federation of Women's Clubs and the American Legion.

Latest census figures show that 5,000,000 men and women in the United States are unable to read or write. If these people were given the alphabet according to a statement by conference officials, "there would be placed in their hands the key which might unlock for them all knowledge including art, music, literature, science, invention and discovery, the wisdom of all people and al lages, but with the alphabet withheld they are consigned to the mercilessness of mental toil with the narrow horizon of unlettered senses."

Manager C. A. Bingham Points Out Failure to Act on Repair

WALK ALL RIGHT, IS CLAIM

Commissioner A. J. Gray Believes Work Not Necessary

Demand for the repair of the sidewalks about the court house was renewed Friday in a letter sent by Manager C. A. Bingham to the county commissioners.

Bingham declared that the commissioners promised to repair the walk after the comfort station was completed. Bingham's letter says it has not been done.

Furthermore he contends that the walk in front of court house is in a dangerous condition, and is a menace to public safety.

FIFTH LETTER

Manager Bingham also asserts in his missive that he has written the county board four times requesting that they repair the walk, without receiving a reply.

The letter was filed with the other correspondence by Oscar Montague, clerk of the commission.

Commissioner A. J. Grey, explained Friday that portions of the walk were repaired by the contractor when the station was completed. He doesn't consider the remainder of the walk dangerous. The walks about the court house are large stone slabs, overlaid with a two inch layer of cement.

The cement has flaked off in places, exposing the stone to view.

CITY PAYS $500 TO HOSPITAL

Action Follows Ultimatum of Trustees' President

City hospital and the safety pension funds get part of the $50,000 advance draw of taxes made by the city on the county, according to the distribution completed Friday by Miss Irene Clark, deputy city auditor.

Public safety and sinking funds get the lion's share of the advance draw, [illegible] department taking $20,000. The general fund gets $4,000 and the health fund $2,000 while $2,000 goes to public works.

The police pension fund is richer by $700 and the firemen's fund by $700 while City hospital and the library each draw $500.

At the Monday night meeting of the city commission Frank Baxter president of the hospital board of trustees told commissioners that unless the city made some effort to pay the $6,709, which he says the city owes the hospital on its contract, the hospital would have to stop charity work for city patients.

The advance of $50,000 paid this week to the city leaves only $56,[illegible] due the city from the county for operating purposes of the allotment of taxes [illegible] by the county budget [illegible] This gave the city [illegible] $[illegible]16 for operating purposes out of a total of $1,250,000 [illegible] paid by the people living within the city limits.

WHISTLING TRIBE DISCOVERED

Indians Who Don't Talk Seen in Northern California

WOMEN SCARED BY VOICES

Ranger Finds Them Hospitable Intelligent, Industrious

BERKELEY, Cal. (Associated Press.)—A tribe of Indians whose members communicate among themselves only by whistling and who never talk to the white man, it has been found in the Siskiyou mountains in northern California.

The discovery was reported to A. L. Kroeber, curator of anthropology and museum of the University of California by J. P. Saxon of the United States forestry service.

Saxon said for weeks forest rangers in a remote part of the Six! had heard unearthly whistling over the service wires that stretch from station to station thru the mountains.

He went to investigate and after nightfall was caught in a mountain storm. He found a small cabin of Indian construction. It was empty and he prepared to spend the night there.

BED MADE, TABLE SET

The ranger recalled that he left the shack to stable his horse in a lean-to nearby. When he returned, he said, he found steaming food laid on the floor, and beside it a bed of deer and bear skins for him. But no one was in sight.

For two days, related Saxon, he lived there in this way. When he left the cabin food would be spread for him, but with no amount of agility could he discover the unseen dispenser of hospitality.

Finally, on the third day, several Indian men appeared at the cabin, an din sign language informed him that he had been their guest.

"To my amazement," he said, "I learned that they did not speak to one another in any language of words or in the ordinary articulate sounds of human beings, but that they conversed only with staccato whistlings."

WHISTLE CALLS

At a whistled command birds would flutter from the trees to a clearing to eat food scattered there by the women, according to Saxon's narrative.

He described the men as shy, adding that the women were like deer.

"At the sound of my voice," he explained, "the women fled into the canyons."

He said the Indians led him to the nearest forest service telephone station and by signs conveyed to him that they had seen forest rangers using this instrument and had themselves experimented with it in their whistling tongue. This explained the mysterous sounds.

Saxon believes that the isolated clan of "whistling people" is an obscure offshoot of the Karok tribe of Klamath Falls Indians.

Prof. Kroeber said the Karoks were an unusually intelligent and industrious tribe, numbering today about 2,000. He is investigating the report of the whistling Indians.

LET 'EM HAVE GOOD TIME SAYS MAYOR OF LONDON

LONDON. — The lord mayor of London, Sir Louis Newton, believes the people should be permitted to do as they please on Sunday so far as work and entertainment are concerned. He gave practical emphasis of the idea recently by breaking the tradition of a mansion house Sunday and attending on that day a dinner of the Eccentric club.

In a speech in acknowledged the "gift" of being made an honorary member, and said one feature of the club which he appreciated was its unrestricted hours. "For on this day of grace it ought to be left to the people to choose the hours they desire for work and entertainment without eternal parliamentary restrictions."

New Lamp Burns 94% Air

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, C. M. Johnson, 609 W. Lake St., Chicago, Ill., is offering to send a lamp on 10 day's FREE trial to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make $250 to $500 per month. Adv.

RHUR'S HYMN OF HATE DEADENED

Curses Greeting French One Year Ago Today Stilled

(By CARL D. GROAT)

BERLIN — (United Press)—The Ruhr's hymn of hate is deadened.

The curses that greeted the French occupation one year ago today have been stilled. Hate still burns in many a Ruhrite's heart, but the desire to live is the strongest passion that the Ruhr now shows.

And, the Ruhr, despite months of "passive resistance," followed by a hunger wave, now believes that the path is opening to a final settlement with France which will give the Ruhr and Rhineland a chance to work.

The preliminary agreement between the German "Micum" will probably be extended. And, the Ruhr and Rhineland believes that there are signs of a real adjustment—a hard bargain, perhaps, but better for Germany than trying to dodge reparations burdens and having to fight French counter actions.

MUST PAY FRANCE

Ruhr and Rhineland magnates are now staring facts squarely in the face—for the first time since the war. Impartial outside business men say that the industrialists have realized that they must pay, and are adjusting themselves to this program.

This means that German industry is going to come back. It will be a long profess, this paying. But, the terrible specter of starvation and unemployment are destined in the next months to subside according to business men's calculations.

Whether the Rhine and Ruhr fall definitely under French domination is still a question. The French willingness to reduce its occupation forces is regarded here as a slight concession. But, the plans for a Rhenish currency (French-franc supported) is a nut which the Berlin government has had trouble to crack.

Sounding speeches about inseparability of Rhine and Ruhr from their mother land, Prussia, do not alter some cold facts that the French occupation plus certain Berlin government mistakes—have caused a certain estrangement.

Nor do such peeches change one iota the realization that the forthcoming reparations conditions will inevitably cause a certain alteration in the form of government and economic connection between the industrial region and the rest of Germany.

The Stinnes concerns are already readjusting their trust arrangements, taking into consideration the fact that there is at least an invisible, though real, barrier between occupied and unoccupied zones.

COSTLY TO BERLIN

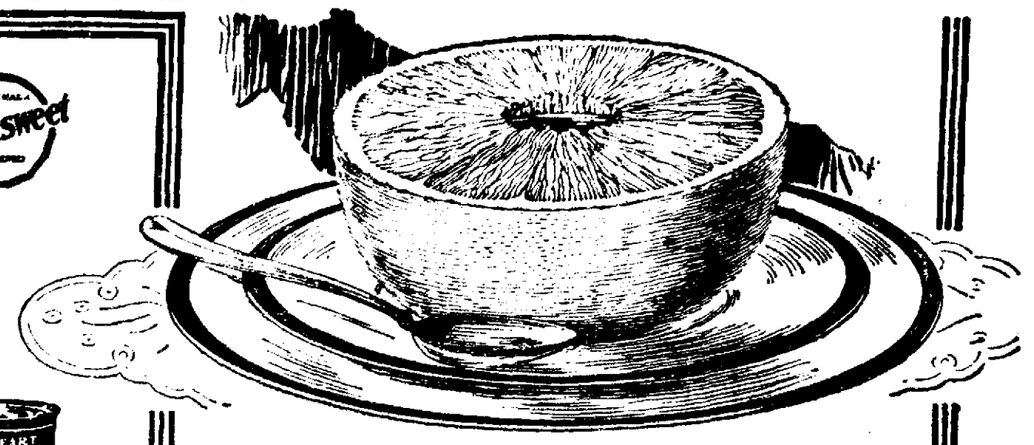

The Rhine and the Ruhr have eaten the already dilapidated Berlin treasury out of cash. Trying to support the unemployed has been a problem which no cabinet has been able to solve satisfactorily.

For a time, the government considered throwing the occupied area to the French with the demand, "You take care of these people under the Hague land-war convention." This roused a storm and the idea was abandoned.

But since then there have been hundreds of governmental conferences, wherein the question of a temporary separation or at least an alteration in relation which would free the central treasury, has been discussed.

The Rhine and Ruhr undoubtedly want to remain German.

But, they realize that financial questions make it probably impossible to retain now the old forms of governmental and economic relation which prevailed before the horizon-blue forces swept into Essen and other big cities in Germany's Pittsburgian district.

MRS. HARDING TO SHUN LIMELIGHT

Declares She Will Not Actively Enter Political Campaign

SETTLES DOWN AT CAPITAL

Invitations to "At Home" to be Issued Soon

(BY LAWRENCE MARTIN)

WASHINGTON—(United Press)—Mrs. Florence Harding will shortly issue invitations to an "at home."

This will mark the opening of what promises to be one of the most important salons of Washington.

Mrs. Harding let it be known today that she will not actively enter politics. She has no intention of getting directly into the hurly burly of the campaign. In the past Mrs. Harding has found other methods of getting things done quite as effective and she will continue to pursue those indirect methods.

The women of Washington's political circles, wives of cabinet members, senate and house members expert upon national politics on influence seldom suspected outside the inner circle. Mrs. Herbert Hoover, wife of the secretary of commerce; Mrs. Alice Roosevelt Longsworth, wife of the administration leader in the house, and other capable politically wise women here are quite as much in the thick of things politically as their husbands.

SETTLED DOWN

Having unpacked her trunks and settled down in a comfortable suite at a downtown hotel to spend the winter Mrs. Harding, as a matter of course is preparing to renew the pleasant associations she had as the wife of a senator and a president.

But she will not follow obvious methods. She had declined definitely all requests that she write her memoirs or discuss public or political questions in print.

Mrs. Harding used always to tell the movie and newspaper photographers to leave her out of the picture.

"You can take as many pictures of the president as you like," she said, "but don't take me."

She meant that and she will continue to shun the limelight.

RELIEF IS WORTH WORLD OF GOLD

Suffered Untold Agony With Stomach Before She Found the Plant Juice

S FEELING WONDERFUL NOW

'For years I had been suffering untold agony with my stomach but finally I found your Plant Juice medicine and it gave me relief and I would not take all the gold in the world for the good Plant Juice did me," said Mrs. Rosa Hosterman, well known lady of South Bend, Ind., living at 518 North Eighth Street, that she was talking with the Plant Juice man a few days ago.

MRS. ROSA HOSTERMAN

"For years I suffered untold agony with Stomach." Mrs. Hosterman continued. "The lightest kind of food would form on terrible spells of indigestion and awful attacks of bloating. I lost weight and got so weak and run down that I could not do my housework. I was so nervous I could shake all over and could not sleep right. And besides all this my back ached nearly all the time and I had terrible hot flashes all over my body which would almost drive me insane.

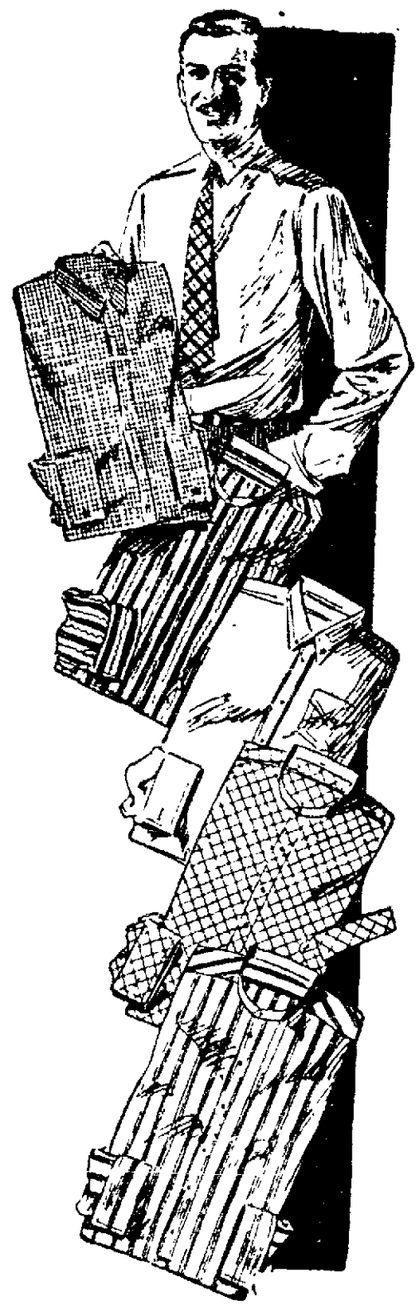

"The truth is that I had just about given up all hope of ever getting well when one of my neighbors told me about Plant Juice and begged me to try it. I am glad to say that I took her advice and have now taken four bottles of your Plant Juice and the change in both my appearance and health is simply marvelous. I have a fine appetite and can eat the heartiest kind of foods and have not the slightest bit of trouble with my stomach afterward. I sleep fine and feel that I have regained my health so that I am able to do a good day's work now and enjoy doing it in short. I am just feeling wonderful. I think Plant Juice deserves the highest kind of praise and I am glad to recommend it."

Plant Juice is sold in Lima at the Winter drug stores, 49 Public Square and Main and Wayne streets; also at the Arcade drug store, opposite Post Office. adv

RIVERS IN OHIO ON RAMPAGE

Floods Threatened as Result of Heavy Rains

WARNINGS ARE SENT OUT

Lowlands Expected to be Inundated by Tonight

COLUMBUS — (Associated Press) —Following torrential heavy rains yesterday ... all rivers in central Ohio ... on a rampage ... and ... flood warnings to Coshocton ... and Athens.

Yesterday's rainfall in central Ohio ranged from ... than one inch to more than two inches. With the ground frozen the excess rainfall quickly filled the already full streams causing flood conditions at Walhonding on the Walhonding river above Coshocton, and at Circleville on the Scioto, below Columbus.

Reports from all central Ohio river towns indicated all streams rising rapidly with the possibility that by nightfall many acres of river lowlands will be inundated. No serious ... however were anticipated by the weather bureau which ... keeping a close watch on the situation.

At Athens the Hocking river registered 12.9 feet this morning with the indication that flood stage would be reached during the day. At Zanesville the Muskingum stood at 15.6 feet this morning and was rising rapidly. The Olentangy at Delaware registered 7.8 and was rising. At Walhonding the Walhonding river was at four feet above flood stage this morning. The heaviest rainfall in Ohio was recorded there, two inches of rainfall being reported.

Colder weather and cessation of the rain should bring relief to the flood areas, the weather bureau announced.

GERMAN SCIENTISTS ON MANY LECTURE TOURS

TUBINGEN, Wuertemberg — German scientists still are well considered in the outside world, for no fewer than four prominent savants recently have been called from Germany to learned institutions abroad.

Prof. R. R. Schmidt of Tubingen university, an archaeologist, has sailed for New York to deliver a course of lectures at Yale and Columbia universities. Prof. Schmidt has conducted excavations in Wurtemberg and is an authority on prehistoric man.

Prof. Von Hoyningen Huene also of Tubingen university, has sailed for Buenos Aires where he will conduct researches on saurian fossils under the auspices of La Plata university. Prof. Huene is the head of the geological palaeontological institute of his home university.

Dr. Anton A. Dimpf for many years leader of the zoological institute of Koenigsberg university, has ... a call from the Agricultural ... for the post of professor of applied zoology and state entomologist. Dr. Dimpf was formerly on the staff of the colonial government of German East Africa.

Prof. Herman Thoms, director of ... institute of Berlin university has gone to Japan to lecture on the progress of modern western medical science.

GIRL MISSING FROM CLEVELAND, HOME FOUND

CLEVELAND — Elizabeth Klar, 13 year old West Tech high school student who has been missing from her home since December ... was found ... today ... in an ... home.

According to ... Farragher the girl ... left home because she did not want to go to school and feared her father would compel her to attend. She said that she had been doing housework.

MORTON OFFERS SOME POSERS

Retail Credit Bureau Members Given Three Questions

Secretary J. E. Morton of the Board of Commerce gave the members of the retail credit bureau something to think about at their noon day luncheon meeting Friday when he asked them three questions and told them to study the questions and give their answers.

The questions which Morton propounded are:

Should a husband be liable for the debts of his wife contracted prior to their marriage?

Should a husband and wife be held equally liable for the necessities for the family?

Should a man be relieved of his personal indebtedness when he files a petition in bankruptcy in his business?

Dr. E. C. Yingling the new president, presided for the first time and was made the butt of a bit of jingling rhyme when he was presented.

FORD OFFERS POWER TO CITY OF DETROIT

DETROIT — Henry Ford, in conference yesterday with Acting Mayor Joseph A. Martin, offered to provide the city of Detroit with power from the new Ford Motor Co. plant being constructed at River Rouge, it was learned today when Martin called a conference of the public lighting commission to consider the offer. The city has voted to spend $12,000,000 to build a power plant. Ford expressed the opinion that he could sell power to Detroit at less cost than the city could produce its own.

Ford told the acting mayor that in his opinion the present is a transitory period and that the proposed city plant—a four unit one to furnish power for street lighting and operating the street railways would be obsolete within a short time after its completion.

AUTOS CRASH

In a collision at 4 p. m. Thursday near Pine and Vine-sts, automobiles driven by W. Roeder and C. S. D... can were considerably damaged. Drivers escaped injury. The smash-up took place when the cars came together at the street intersection, police reported.

COLDS THAT DEVELOP INTO PNEUMONIA

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga. — Adv.

Is Your Child Thin and Weak?

Sugar Coated Cod Liver Oil Tablets Put on Flesh and Build Them Up.

In just a few days—quicker than you ever dreamt of—these wonderful flesh making tablets called McCoy's Cod Liver Oil Tablets will start to help any weak, thin and undernourished little one.

After sickness and where rickets are suspected they are especially valuable. No need to give them any more nasty Cod Liver Oil—these tablets are made to take the place of that good but ... stomach upsetting medicine and they surely do it. They do put on flesh. Ask Hunter's Drug Store or any druggist for McCoy's Cod Liver Oil Tablets—as easy to take as candy and ... inexpensive ... Adv.

Piles

Can't be Cured from the Outside

External treatment ... piles.

Not loss ...

The cause is blood ...

The blood is stagnant ...

The bowel walls are weak, the parts almost dead.

To quickly and safely rid yourself of piles you must free the circulation, send a fresh current through stagnant pools. External treatment is the cause ... Ointments and cutting won't do it.

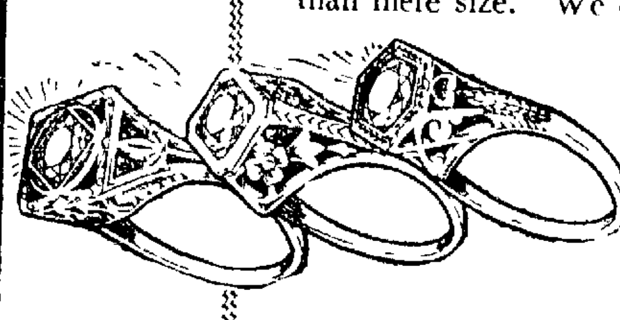

J. S. Leonhardt, M. D., a specialist, set at work some years ago to find a real internal remedy for piles. He succeeded. He named his prescription HEM-ROID and tried it in 1000 cases before he was satisfied. Now HEM-ROID is sold by druggists everywhere under guarantee. It is a harmless tablet easy to take and can always be found at Hunter's Drug Stores who will gladly refund the purchase price to any dissatisfied customer.—Adv.

MANY HOMELESS SEEK ROOMS

Rescue Home Shelters Average of 187 Every Month

TOTAL FOR YEAR IS 2,244

Last January Was High Month of Year Now Closed

An average of 187 free roomers a month or a total of 2,244 homeless were provided with shelter at Lima Rescue home from Nov. 1, 1922 until Nov. 1, 1923, the annual report by Supt. A. D. Welty indicates.

In winter months the demands for shelter were nearly six times greater than in summer months, 1,548 free rooms being donated in five months starting in November, 1922. Report shows 280 roomers in November; December, 306; January, 353; February, 344; March, 265; April, 167; May, 150; June, 61; July, 57; August, 59; September, 79, October, 123.

Annual expenditures totalled $10,-925 75 or $77.06 more than receipts, draining the treasury to $2.55 balance for the year. Receipts aggregated $10,858.69. Of this amount $3,193 11 consisted of donations and $7,665.58 from rental of rooms.

$3 25 SALARIES

In the disbursements for operation of the home, salaries of the superintendent, clerk, matron, house janitor and maid amounted to $3,-257.51 and payment on the indebtedness principal amounted to $2,600 while the purchase of new equipment entailed an expenditure of $1,160.96. Cost of coal, light and gas and other incidentals brought the annual expenditure to the figure named in the report.

Lima Rescue home was founded 17 years ago on Nov. 1, 1906, for the purpose of providing relief to homeless men and boys and to help needy families of the city. A. D. Welty was chosen superintendent and has continously held that position.

The first location was at 207 E. North-st but quarters were inadequate to meet the demands. On May 14, 1914 the present location at Central-ave and E. Wayne-st was purchased and in March 1917 the cornerstone of the present $100,000 structure was laid with ceremony. On July 25, 1920 the new home was opened.

During the recent below zero weather which held Lima in its grasp for two days the Rescue home administered to the wants of hundreds and alleviated suffering by donations of food, clothing, coal and places to stay.

OUTLAW IS TAKEN

Member of Ashley Band Captured in Florida

WEST PALM BEACH, Fla.—(Associated Press)—Bill Ashley, one of the leaders of the Ashley band of outlaws was captured in the Florida Everglades near Gomez Station early today, according to reports received here this morning by the sheriff's office.

The apprehension of his brother John was expected to follow as they were known to have been together.

TED HAS GROUCH, CAN'T BE SUITED

"We no sooner get over one cold snap and get to enjoying the balmy spring breezes following it, than we have to undergo another," Ted says. "I see where the rainy weather of the last few days is swelling all the rivers and creeks until they have a washed-out bridge every few miles of so. Well, it's no wonder. The water under the Bellefontaine-av bridge was all churned up this morning and flowing along at a tacular speed. It comes rather hard right at this time, too, because nobody who works outside can stand the cold. There will be a few snow flurries, too with freezing temperatures all over this section of the state. I notice where all the insurance agents are pasting County Healthier Sutton's advice in prevention of pneumonia in their hats to show prospective customers."

BUILDING IS PARTLY WRECKED BY BLAST

COLUMBUS—One man was slightly injured and property damage estimated at $5,000 caused by an explosion and fire in the storage warehouse of the Gas Products Co. here today. The concussion, caused by the ignition of acetylene gas in a tank, was felt for blocks around and razed one wall of the building. Explosions of tanks of gasses and the ignition of acetylene gas generated when water came in contact with carbide stored in the building made the fire a spectacular one.

The injured man, Arthur Fothergill, 27, was said to have been only severely bruised when struck by falling debris.

"YOU'RE KNOCKING AT PEN DOOR." IS JUDGE'S WARNING

Walter Burgess, 34, former city fireman, was ordered to make good back payments due for support of his child, or go to Ohio state penitentiary when he faced Judge Fred C. Becker in common pleas court Friday. He promised to mend his ways.

"You've been knocking at the door of the pen for a long time," he was told. "If you don't watch your step it will be opened for you."

Burgess was picked up by Roy O. Bowersock, county sleuth, on orders from the court. He was convicted of non-support in 1922, and sentence was deferred on condition that he pay $4.50 a week. When arrested Burgess was in arrears $76.50.

FIVE ALLEGED GAMBLERS DISCHARGED BY COURT

Judge Neil R. Poling Thursday afternoon dismissed the charges of gambling against five negroes taken Tuesday night at 103 S. Union-st by Detectives Hargrov and Godfrey.

Wallace Padlow, W. Wilson, Robert Jones, Johnny Taylor and T. Speaks weer instructed by the court to "watch their step." Case of Harry Sebra, charged with operating an alleged gambling game, was continued by the court.

VETERAN OFFICE CHIEF OUSTED

Liquor Charges Made Against New York Manager

WASHINGTON — (Associated Press) — W. F. Lent, district manager of the veterans' bureau office at New York has bien relsived by Director Hines pending a complete investigation of charges that liquor parties had been held in the district office there and that liquor was carried to a dinner at a hotel in a veterans' bureau ambulance.

Edward Olmstead, who was associated with John F. O'Ryan in the investigation of the veterans' bureau by a senate committee, has been sent to New York as acting district manager. Lent will not be removed from the service however, pending the investigation.

Director Hines said an inspector had been sent to New York and that until a report was made he would reserve final judgment.

The case had its inception nearly two months ago when charges were preferred by a doctor who had been suspended by the district manager. These charges, the director said today, were found to be "biased" in many respects, and preliminary investigation failed to bring out all the facts to the satisfaction of the veterans' bureau. Witnesses who testified in the first inquiry, Mr Hines said, admitted later that they had not told the truth.

After a New Year's eve party, said to have been held in the offices of the bureau in the Grand Central Palace, Frank J. Cummings, sub-district manager, was suspended on charges preferred by Lent. Counter charges then were made by Cummings, who said Lent accused him in retaliation of his charges against Lent made on December 20.

SWINDLERS WHO "HOOK" POLICE SOUGHT HERE

Search for swindlers selling insurance to police officers and defrauding merchants out of advertising by a bogus police magazine was conducted in Lima Thursday by Jack H. Hodkinson, New York, police welfare worker, with the assistance of Police Chief T. A. Lanker.

A fake police magazine describing the department in the city in which they are working is sold by the swindlers, who visit merchants and secure advertising at a high price per inch, giving the police work as reference.

They were trailed to Alliance by Hodkinson, where they published a police record of that department. They left Alliance and are said to be in this vicinity.

SENTENCED TO PRISON

BOWLING GREEN, O. — Frank Simonds, 27, of this city was sentenced to life imprisonment in the Ohio penitentiary late yesterday following his plea of guilty to second degree murder in an indictment charging first degree murder in connection with the slaying of E. E. Keep here February 16, 1918.

BRITISH AVIATION FIRMS MERGE

Four Companies Combine. Seek Service Development

GOVERNMENT PROVIDES AID

Subsidy Granted in Exchange for Cooperation

LONDON, Jan. [illegible] [illegible] [illegible] companies, among them complete [illegible] trolling British commercial [illegible] ities, have combined [illegible] take as one concern [illegible] ment of peace time airplane services.

Formation of the new [illegible] was made with government approval and is regarded as the greatest [illegible] forward taken by any country [illegible] gards commercial aviation.

Sir Eric Geddes [illegible] of the new organization. Associated with him will be the heads of [illegible] present airplane companies: Handley Page, Ltd.; [illegible] & Co., Ltd.; the Daimler Hire Co. and the British Marine Air Navigation Co.

The new company will work in close cooperation with the government.

$5,000,000 SUBSIDY

It is to have a government subsidy of $5,000,000, spread over a period of ten years. In return for this the government is to have the right to name two members of the board of directors, the company must guarantee that its airplanes will fly a minimum of 1,000,000 miles a year as commercial machines, and it must assist the air ministry in aerial research and in testing commercial machines.

The new company will have a minimum capital of $2,[illegible]. This will represent only a fraction of the real services to all parts of the continent.

Centralization of commercial aviation, important as it is expected to be to this country, is only one of many steps in Great Britain's quiet development of its aerial navigation.

DIRRIGIBLES TO INDIA

Plans are being drawn up for dirigible balloon services to the dominions—principally India and Australia.

Then there is the military side. British airplanes did good work in the war—some of them under the guidance of American army aviators. Since the war little has been published about them. There have been no public speed trials. But development has gone on. Tremendous prizes have been offered for the development of a helicoptre—a machine that will rise like a balloon, without going forward, and will hover motionless in the air. From time to time there have been hints that such a machine was practically assured.

Just after the imperial conference adjourned the dominion prime ministers were taken to the great flying station at Croydon and shown the capacities of the machines. Visitors were asked not to tell what they saw. But there were whisperings for days after of new, strange things in aerial navigation.

The future of British commercial aerial navigation seems secure. Unless all reports are false, military development has not been lagging, despite the lack of publicity.

PROGRESS IS MADE ON AMERICAN CEMETERIES

WASHINGTON — Additional reports received by the war department from officers in Europe show that "gratifying progress" is being made in construction work on American cemeteries. A report made public today said the Brookwood, England cemetery "is completed with the partial exception of one small building" and "those who have seen this overseas burial ground have pronounced it dignified, beautiful and simple."

Work on the cemeteries in France is advancing satisfactorily. The soil however, is still heavy and muddy at one or two of the cemeteries, and weather conditions have prevented the sowing of grass seed at all of them except Belleau Wood. Tree planting is in progress and shipments from Burgundy Nurseries are being steadily received.

CHICAGO SALOONISTS NOT AFRAID OF IZZEY

CHICAGO. The presence here of Izzy [illegible], government liquor agent, [illegible] for Chicago's saloons, cafes and soft drink parlors, proprietors of which are confident [illegible] famous [illegible].

[illegible] have hired [illegible] who have been trailing Izzy for week [illegible] carefully tabulate [illegible] various roles, [illegible].

[illegible] Izzy donned [illegible]. Half an hour [illegible] agent registered [illegible] an apparent opera [illegible] the elevator [illegible] where [illegible] Izzy, they said.

HAWTHORN SERVICES ANNOUNCED

Funeral services for Thomas Hawthorn, pioneer resident of Allentown, who died suddenly Thursday night at his home in Bethesda, will be held [illegible] at 1:30 p. m. at Union [illegible]. Interment will be made in [illegible].

NEW COUPE SMASHED IN COLLISION WITH ELECTRIC

A new coupe owned by Caesar [illegible], credit manager for the Garford Truck Co., was smashed by a Western Ohio Interurban car Thursday when it skidded from the highway between St. Marys and New Bremen in front of the car.

Mr. and Mrs. Boesel had been visiting his parents at New Bremen and were on their way home. When the automobile landed on the track, he attempted to flag the approaching car but the motorman did not stop in time to avoid damaging the auto.

MASONIC NOTICE

Special convocation of Lima Chapter No. [illegible], R. A. M., Saturday [illegible] convening at 7:00 o'clock. Work on Mark Master and Past Master degrees. All officers and members requested to be present. Visiting companions welcome.

O. C. WALLBERG, High Priest.
WALLACE LANDIS, Secretary.

Why be Feeble?

ADVANCING years should not mean the approach of a period of dependency—of crutches and canes—of worry, care and fatigue!

Don't dread the days ahead! Be prepared to grapple with the henchmen of Old Age—with rheumatism—with undermined health—with feebleness. The system that is free from impurities—through which rich red blood tingles need not worry about advancing years. Enlist the aid of S. S. S.—the builder of red blood cells—to fight off the infirmities of Old Age.

With the aid of S. S. S. when you reach this stage of life the nerve power that has been built up by ever increasing blood cells—the vim and vigor of youth that you possess will equally enable you to enjoy the advantages of passing years, while others less fortunate are feeble and dependent.

S. S. S. for nearly a century has been serving as a valuable and time honored assistant in the fight for hale and hearty Old Age. It is made only of pure vegetable ingredients and is sold at all good drug stores. The large size bottle is the more economical.

S.S.S. Makes You Feel Like Yourself Again

CLEAN KIDNEYS BY DRINKING LOTS OF WATER

Take Salts to Flush Kidneys if Bladder Bothers or Back Hurts

Eating too much rich food may produce kidney trouble in some form, says a well known authority, because the acids created excite the kidneys. Then they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, torpid liver, acid stomach, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in the system so that they no longer irritate, thus often relieving bladder disorder.

Jad Salts cannot injure anyone; makes a delightful effervescent [illegible] of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders. By all means have your physician examine your kidneys at least twice a year.—Adv.

IT'S OLD FIGHT OF OUTS AGAINST INS THAT THREATENS MEXICO

Professional Politicians and Ex-army Men Are Allies

ALL JOIN WAR ON OBREGON

Progressive-Conservative Tilt by Arms, Says Writer

(By CHAS. W. ERVIN)

NEW YORK — (United Press) — The average citizen of the country would be interested in what is going on in Mexico if he could only find out what all this fighting is about. He reads a lot about "revolutionists," but it is hard to find out what they are "revolting" for.

He reads about "reactionaries," "counter-revolutionists," "Reds," "Bolsheviks," and he wonders how part of Russia slipped over the country south of the Rio Grande.

It is true that there are "reactionaries" in Mexico, the same as there are in the United States and all other countries. As for the "Reds" and "Bolsheviks" in the Russian sense, there are not enough in Mexico to form the proverbial cooper-al's guard."

The truth is that the fight in Mexico is between the Conservatives and Progressives and that a part of those who were with the Progressives in 1920 when Obregon was elected president have deserted to the ranks of the Conservatives, the calling themselves "Co-operationists." De la Huerta, formerly in Obregon's cabinet, has become their leader.

The Progressives believe that the industrial and agrarian provisions placed in the Mexican Constitution in 1917 should be put in force. These provisions recall somewhat the "industrial justice" plank in the platform of the Progressive party of this country in 1912, and the "right to use the earth" gospel proclaimed by Henry George and agitated for in this country by the Single Taxers.

While Obregon and his sincere supporters seem to have made an honest effort to put the constitution into practice, many of the state governments still on the hands of the conservatives have prevented the carrying out of its various provisions.

CALLES OPPOSED

Calles, who is one of the candidates to succeed Obregon whose term expires next year, was formerly a member of his cabinet and also governor of the state of Sonora. In both positions he tried to carry out the industrial and agrarian provisions of the constitution and brought down upon himself the wrath of the conservatives. They are therefore opposing his candidacy and have revolted against the Obregon government, claiming that the president is favoring Calles.

Both Obregon and Calles are anti-militarists. While they both have "general" attached to their names in the dispatches, this title was earned in the people's revolution against the tyranny of their rulers. Obregon was a farmer, like many generals during our revolutionary era and Calles was a school teacher.

The first thing that Obregon did after becoming president was to cut down the size of the army. One hundred thousand soldiers were sent back into civil life. Many of the generals who had not come out of civil life and hundreds of colonels, majors, captains and lieutenants, who led an easy life at the expense of the people, opposed this very much, but as the money saved from military expenses was immediately transferred to the upbuilding of the school system, the people backed up the government in this program of military retrenchment.

ARMY OFFICERS INVOLVED

The army officers who were let out have, however, never ceased to intrigue against the Obregon government and many of those remaining in the military establishment belonging to the conservative and aristocratic class have joined with them. It is these militarists, joined with the professional politicians, whose looting has been interfered with, who are trying to overthrow the Obregon government.

De La Huerta, who was formerly as much trusted by Obregon as Benedict Arnold was trusted by Washington, will probably not accomplish his ambition to be president of Mexico, even should the militarists succeed in overthrowing Obregon. In the event of their triumph, they would undoubtedly impose one of the "old guard" Conservatives as president.

The news from Mexico indicates the enlisting of a new army by Obregon composed of farmers and industrial workers, a citizens' army, such as that which fought at Lexington and Bunker Hill. If Obregon can keep the militarists at bay until this new army can swing into action, the attempt to maintain a democratic republic to the south of us may succeed.

If not, Mexico will again become the prey of armed factions, all the sacrifices of the last 13 years will have gone for naught, and one of the richest countries of the world in natural resources will sink into the mire of misery and poverty.

DAIRY MARKETING PLAN IS UP FOR DISCUSSION

A conference of all the dairymen, all the farm agents, and farm bureau officials of this district will meet in the Barr Hotel Tuesday to discuss a new plan for cooperative dairy marketing with the officials of the Equity Union Creamery Co.

It is declared an agreement has been reached by members of the company and all damages concerned, which will have to be submitted to the Equity stockholders at their annual meeting, early in January.

The plans have not been announced, but they will require the signatures of at least 2,000 men. It is hoped to procure 4,000 signatures.

COUNTY ROAD IN CITY OBJECT OF COMPLAINTS

County officials announce receipt of many complaints about the condition of St. John's av. where the street car tracks cross at Catalpa av. This is a county road although within the limits of the city, City Manager Bingham said Friday.

On Nov. 24 the city asked the county engineer to investigate the condition of the road but according to a report made to the city manager Friday by City Engineer Jewhurst nothing has been done.

HEART TROUBLE FATAL TO ROBERT C. MAHAN, 20

Robert C. Mahan, 20, son of Mr. and Mrs. John Mahan, 867 W. Market st, died early Friday morning at the home of his parents following an illness of three months. Heart trouble was the cause of death.

Mahan was born in Lima, July 10, 1903. Besides the parents, he leaves a brother, Harold Mahan, at home and a grandmother Mrs. Lorette Mahan, of Cridersville.

Funeral arrangements have not been completed. Interment will be made in St. Mathews cemetery.

HUNT FOR BANDITS IN SWAMPS IS RESUMED

WEST PALM BEACH, Fla. — Dawn brought a resumption of the search by possemen for members of the Ashley gang in the fastnesses of the Florida Everglades with the advantage of ambush on the side of the outlaws and strength of numbers with the posse and a battle to the death expected.

More than a dozen members, intimates and associates of the Ashley clan are in custody after the battle at their bandit camp which resulted Wednesday when a lookout fatally shot from ambush Deputy Sheriff Fred Baker when he and four other men approached the rendezvous to arrest a man wanted for robbery.

BODY WASHES ASHORE, BELIEVED U. S. AVIATOR

LONDON — (United Press) — A body believed to be that of the American aviator, Lawrence Sperry, who disappeared last month, while attempting to fly his famous "flivver airplane" across the English channel, was washed ashore today, near Pye, Sussex.

Sperry, celebrated for his stunts and experiments in the realm of aviation, had been flying his baby airplane in England, assisting in the political campaigns at the time of the general election. He decided upon a cross-Channel flight and last was seen by a fisherman winging his way toward France, high above the [illegible]

FORMER GREEK PREMIER DECIDES TO FORM CABINET

ATHENS — Ex-Premier Venizelos decided this morning to form a cabinet in which he will be premier without portfolio, with Georges Theotokis, Republican Liberal leader, as foreign minister, as the only possible solution of the protracted government crisis.

M. Venizelos reached this decision after General Danglis, who canvassed yesterday to endeavor to form a ministry, had failed in the attempt despite an all-night effort.

General Danglis' failure caused the keenest disappointment to Venizelos and his decision to become premier himself was taken as apparently the only course remaining open.

RECTOR TOLD TO STOP DANCES

Bishop Manning Issues Order to Dr. Guthrie

CHURCH MAY WITHDRAW

St. Mark's Threatens to Quit New York Diocese

NEW YORK—(Associated Press)—The Protestant Episcopal diocese of New York of which William T. Manning is bishop, today faced the possibility of the withdrawal of St. Mark's in the Bouwerie, one of the oldest churches in the United States.

The church, of which Dr. William Norman Guthrie is rector, may withdraw unless Bishop Manning at a meeting Monday with Dr. Guthrie and his vestrymen, consents to continuance in St. Mark's church and parish hall of alleged pagan services to which he recently took exception.

Bishop Manning was understood to have notified the rector he must modify or altogether eliminate symbolic services, including dances in which scantily clad young women took part.

Dr. Guthrie, it was learned last night, will propose that St. Mark's be allowed to withdraw from the local diocese as an independent unit at the same time preventing the complete severance of the church from the denomination.

Dr. Guthrie said he intended to avoid belligerency at Monday's meeting and expressed the belief that an agreement would be reached which would mean "peace and honor" to both sides.

Home Made Cough Mixture Considered Best

Spreads Over Membrane, Soothes, Heals and Stops Cough Almost Instantly.

Costs But a Trifle

Make your own cough syrup in two minutes at home if you want the best. Simple coughs, or stubborn coughs, it doesn't matter which, this home made mixture will stop them quicker than any expensive cough syrup you can buy ready made.

It's fine for chest colds too and for acute nasal catarrh.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make one pint—that's all there is to it, and children like it.

Like a soothing, healing poultice one costly substance in this home made cough mixture spreads itself completely over the membrane of the throat. This causes the most stubborn hang-on cough to cease almost instantly. No ordinary slow acting cough syrup contains this expensive ingredient.

And remember, any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

LAST BAR DOWN ON OPIUM FIGHT

Swiss Parliament and Council to Ratify League Pact

AMERICA LEADS IN FIGHT

Congressman Porter Prepares Program for Battle

(BY HENRY WOOD)

GENEVA — (United Press) — The decision just taken by the Swiss parliament and the Swiss federal council to ratify before the end of the parliamentary session next June the Hague convention for control of the opium and harmful drugs traffic renders virtually certain the eventful world-wide adoption and application of the American program for the suppression of the drug traffic.

This program which has been officially adopted thru the efforts of Congressman Porter, chairman of the house of representatives committee on foreign affairs, as the basis of the League of Nations program provides not only for the limitation of the manufacture of prepared opium, cocaine, morphine and heroin to the world's actual medical and scientific needs, but a similar limitation also the production of raw opium and coca leaves.

TWO CONERENCES

To render the application of this program possible the league has summoned two international conventions for July of 1924. The first of these will either limit or suppress entirely the production and use of raw opium for smoking in Pacific countries and which is still held as legal under the Hague convention.

The second conference which will meet as soon as the above limitation to the production of raw opium has been attained, will draft an international convention amongst all the great producing and manufacturing countries limiting the production of the manufactured or derivative products to the world's actual necessities.

To date the greatest obstacle to the above program or even to the successful application of the present Hague convention has been the failure of several very important countries to ratify and enforce the latter.

Of these outsiders, Switzerland, which is not only one of the biggest drug manufacturing countries but also a center for the unlawful commerce in these drugs to surrounding and other states, together with Turkey and Persia as big opium growing countries, have been the biggest thorns in the flesh of those who are trying to control the traffic.

Under the Treaty of Lausanne the new Turkey agreed to accept the Hague anti-opium convention and to undertake its rigid enforcement.

Persia has also notified the League of Nations that opium growing which, in Persia, is regarded merely as a form of agriculture and a means of livelihood will be reduced and abolished just as fast as western nations help the country to replace it with other forms of agriculture and means of livelihood.

As a consequence, Switzerland remained virtually the last important outsider in the world-wide effort to limit or suppress the harmful drugs traffic.

WRONG GIRL EXAMINED BY PHYSICIAN IN HUNT FOR SWALLOWED PIN

AKRON — (Associated Press) — An open safety pin swallowed by three year old Betty Manders, one of twin daughters of Mr. and Mrs. Jack Manders of Ravenna, provided one of the most unique and humorous cases in the annals of local medical circles.

Within a short time after the girl had learned of it and sent for a had learned o fit and sent for a physician. The doctors came with all the necessary instruments to remove the offending article, but a preliminary examination failed to reveal the location of the pin. An X-Ray examination was deemed necessary, but even this failed to give the physician the slightest idea of its location. No traces of the pin could be found.

Three more X-ray examinations were made but still the wandering pin could not be located. The physician after such an exhaustive search had just reached the point where he was ready to send to Cleveland for expert advice, when the mother made a most important discovery.

They had been examining the wrong girl.

It seems that Shirley, Betty's twin sister, had come into the room prior to the arrival of the doctor and in the hurry and confusion the physician had pucked up the wrong child. With this "trifling" mistake rectified the pin was removed from the right patient.

PHONE RATE RAISE HIT BY DONAHEY

Governor Opposes Increase in Long Distance Tolls

WILL MAKE INVESTIGATION

Should Not be Granted Unless Warranted, He Says

COLUMBUS — (Associated Press) — Governor Donahey [illegible] that the proposed [illegible] phone rate increase by the Ohio Bell Telephone Co. should [illegible] by the state public utilities commission unless [illegible] reveals it is warranted [illegible] administration will [illegible] at its command [illegible] exhaustive study to [illegible] appraise property [illegible] clared

The proposed [illegible] for which [illegible] utilities commission [illegible] five January 21 [illegible] rage of about three [illegible] sages within the state [illegible] the rate department of the [illegible] commission. The increase [illegible] to be about five cents on all [illegible] toll charges of [illegible] including 75 cents.

PROTESTS MADE

Two protests against the proposed increase already have been [illegible] by the commission. One came from the Toledo Wholesale Coal Dealers Association and the other from Charl[illegible] Upton Shyrock of Zanesville. Other protests are expected. It is expected the commission will suspend the date for the new rates to become effective pending an investigation and the hearing of the protests.

Governor Donahey in his statement which outlined the ownership of the Bell Telephone companies in the United States is being controlled by the American Telephone and Telegraph Company, declared that the proposed rate increase will add between $500,000 and $1,000,000 to the Ohio Bell Telephone Company's annual revenues.

The Bell companies, the governor asserted, have been "incessantly seeking raise after raise in rates," adding that "in some instances long distance telephone rates are nearly as high as cost of trasportation over railroads, interurban or bus lines for the same distance."

The thirty-one Toledo coal dealers who have protested the increase thru their association, Governor Donahey asserted, pay yearly about $100,000 in long distance telephone tolls which he declared is passed along for the coal consumers to pay. Any increase in telephone rates, he asserted, will be passed along to the consumer.

TELLER HELD UP

Kansas City Bank Employe Robbed of $44,500

KANSAS CITY, Mo.—(Associated Press)—Several negroes held up a teller of the Main Street Bank at the door of the bank shortly before noon today and escaped with $44,500.

F. J. Lodde, the teller, with Charles Haake, cashier, were returning from the First National Bank with the money in a satchel when the robbery occurred.

COLLIE ADOPTS BABY LION; MOTHER SCORNED

OAKLAND, Cal.—A baby lioness born in a cage here recently, has been adopted by a mother collie dog.

The cub had two little brothers but their mother, Simba, perhaps believing that a life of captivity was not worth while for them, rolled on them and killed them.

But the lioness cub was snatched away from this danger by H. A. Snow, African game hunter and curator of the Oakland museum of natural history. He put [illegible] in a box padded with a quilt removed her to the museum workship and fetched her a bottle of milk, which she took to with avidity.

He then brought in the collie which promptly licked the cub sympathetically and curled up beside her with a protective air.

JAM AT AUTO TAG SHOP CAUSES ANOTHER DELAY

Because the license plate shop in the Ohio penitentiary is two weeks behind the demand for 1924 tags the deadline for purchasing licenses has been extended for a second time by Thad H. Brown, secretary of state. The new limit is Jan. [illegible]

Jan. 11 was set as the final day for buying tags, but Thursday night wires were sent out from Columbus to all parts of the state [illegible] the public the sale would be continued up to and including Jan. [illegible]

Announcement of the extension will afford relief to [illegible] of Allen co. who have been storming the Lima Automobile club to [illegible] new tags.

QUAKE SURVEY IN U. S. PLANNED

Increasing Prevalence Renders Necessity is Claim

WASHINGTON — (United Press) — A thorough systematic earthquake survey of the United States is an urgent necessity, Col. E. Lester Jones, director of the Coast and Geodetic Survey, declared here.

Within the last two years earthquakes have been felt in Canada near Maine and New York, in Illinois, Kentucky, Indiana, Utah, Arizona, Washington and California beneath the sea off the coast of Oregon and in the outlying territories." Jones said.

"Earthquake study is therefore important to the country as a whole."

Jones proposed a study similar to that [illegible] completed in California [illegible] region of this country most frequently visited by temblors.

The California survey undertaken by a number of scientific bodies in collaboration with government aid was not only a scientific survey of earthquakes but also a very practical one, aimed at procuring useful information for architects and builders in [illegible] to places where they must use special precautions in order to avoid the danger of catastrophe.

Its outstanding purpose was to make it possible to reduce [illegible] life and property in great earthquake and eliminate it [illegible] minor ones.

Some of the results to be expected," Jones said, "counting on the possibilities of such a nation wide survey include better knowledge of the places where earthquakes have occurred and are likely to occur and a study of the western mountain region to determine whether earthquakes are likely to occur in the vicinity of the sites of great dams [illegible] reclamation w[illegible]

They also include learning in advance whether there is danger of recurrence of such great earthquakes as those in Charleston and New Madrid and getting more knowledge of the whole subject of earthquakes so that more will be known about the internal structure of the earth and what is going on beneath the [illegible] that [illegible] the conditions of [illegible] line."

CITY'S DOWNFALL DUE TOMORROW

Mexican Capital to be Destroyed, Says Prognosticator

MEXICO CITY —(By Radio via FORT WORTH STAR TELGRAM.) (Associated Press.) The revolution has been crowded from the public mind and the front pages of newspapers here in the last few days by the prophecy of a British prognostication that Mexico City would be destroyed by an earthquake and volcanic eruption tomorrow. As a result of this prophecy fear has gripped the minds of the ignorant superstitious classes and for the last few days they have been crowding the churches.

Many are preparing to leave on short notice for the suburbs to escape falling buildings.

The fear stricken people have taken as an ill omen the fact that the volcano Popocatepetl overlooking the city has been emitting smoke in the early mornings of the last few days.

Cabled reports of events of the outside world being cited by believers in the prophecy. They point to front page displays of the extreme cold in the United States, storm off the British coast, floods in France, avalanches in the Alps and recent earthquake disturbance in the states of Sonora and Chihuahua as proof for their belief.

WAR CASUALTIES HEAVY

MEXICO CITY —(By Radio bia FORT WORTH STAR TELGRAM.) (Associated Press.)—Both the De la Huerta revolutionary forces and the federal troops suffered "a large number of casualties today during fighting at Pachuca in the state of Hidalgo, according to private information received here.

When the rebels entered Pachuca after considerable fighting 70 federal troops barricaded themselves according to the information here and the rebels dynamited the building but only after the federals had poured a withering fire on the rebels inflicting many casualties.

Federal lead[illegible] here are rushing [illegible] to the city to retake it and according to a bulletin issued by the war department the city again will be in the hands of the federals tomorrow.

Unofficial reports reaching Mexico City tell of a counter revolution that has broken out in the western part of [illegible] against the De la Huerta revolutionists.

17 PERSONS DIE IN TIDAL WAVE

Storms' Toll in France is Expected to Grow

PARIS — (United Press) — The death list from the tidal wave which inundated many towns along the [illegible] of France early Wednesday stood at 17 today with crews of many ships still to be heard from.

It was feared the final toll of casualties might be much larger.

Reports of a submarine seismic disturbance were denied, scientists asserting the wave was caused by a combination of unusually high tides and the severe storms which have been raging intermittently for two weeks.

No reports have been received from the crews of several disabled vessels. It is feared the men were overwhelmed by giant waves when they took to lifeboats.

$40,000 PAID FOR SUIT OF CLOTHES

Serb Leaves Bonds With Order and Gives Mystery Clue

PRAGUE — (Associated Press) — A story of missing bonds, a mysterious Serb who paid $40,000 for a suit of clothes, and a Wisconsin farmer who should be grateful to a distant brother-in-law, has come to light in the records of the local police headquarters.

A little more than three years ago a package of bonds, valued at $100,000 and addressed to a bank in Chicago, was mailed in Omaha. It never reached its destination, and investigation showed that the package had been sent erroneously to Rossice, in Czechoslovakia. It was duly received in Prage but thereupon all further trace of it was lost.

Three months ago, according to information in the possession of the Prague police, a farmer of Wisconsin presented to the Chicago bank in question five bonds of $1,000 each that had been included in the original shipment. Questioned, he explained he had received them from his brother in-law, a tailor of Prague.

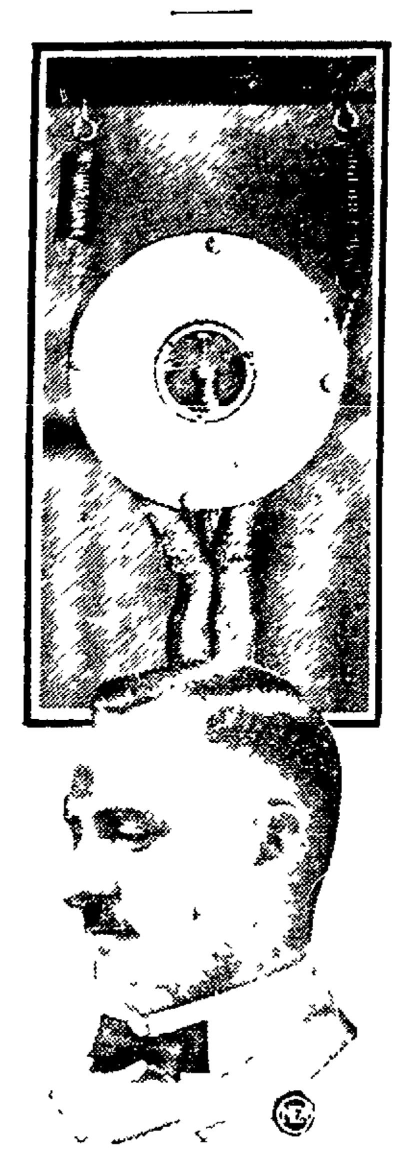

The trail, now back in Czechoslovakia, was again taken up by local detectives, who soon found the tailor. This man related that in the spring of 1921 a Serb, recently arrived from America, ordered a suit of clothes and left with him as a guarantee of final payment, $40,000 in American bonds. The Serb never called for his clothes, and the tailor not knowing what to do with the bonds, finally sent them to his brother-in-law in America, the Wisconsin farmer.

There is, however, another angle to the story. It seems the tailor's son was employed in the Prague post office when the bonds reached there, and this coincidence has led to the arrest of the tailor and his son, who are now lodged in jail pending the receipt of further information from the United States.

ATTACK MADE ON FOREIGN SEED

Clover Importation Worthless and to Presage Losses

URBANA, Ill., — (Associated Press) — Warning that foreign clover seed that is pouring into this country is unusually large quantities, is worthless and that the American farmer will be made to suffer enormous and unnecessary losses and the clover crop of the nation be greatly injured if steps are not taken to protect him, is contained in a letter written to Harry C. Wallace, secretary of agriculture, by J. C. Hackleman of the University of Illinois, secretary of the International Crop Improvement association.

According to Hackelman, the red clover seed crop in the United States does not exceed 45 per cent of normal this year for this reason there is a threatened importation of 30,000,000 pounds of red clover seed, enough to plant 3,000,000 acres, from France, Italy, Argentina and Africa. This seed, Hackleman said, has been tested in all portions of the United States.

"Comparative tests of clover seed from various sources, native and foreign, conducted by experiment stations in the majority of clover growing states," his letter says, "show conclusively the worthlessness of imported European seed particularly that of Italian and French origin, which represents the bulk of the importations."

The letter is the reseult of the fourth annual meeting of the International Crop Improvement associations, at which the situation was discussed and a resolution adopted placing the association on record against such importation.

Hackelman's letter was approved and signed by the "clover seed situation" committee of the association which consists of H. D. Hughes, Iowa State college and J. F. Cox of the Michigan Agricultural college.

WAR IS DECLARED ON LOAFERS

Cleveland Police Turn on Idlers Since Routing Gamblers

NEARLY 300 ARRESTS MADE

Philadelphia Hotels, Clubs to be Raided in Cleanup

CLEVELAND — (Associated Press)—Cleveland today is freer of gambling than it has been for many years, in the belief of Chief of Police Jacob Graul, and now the ultimatum of Safety Director Edwin D. Barry to clean up the city has been extended to include war on loafers.

Nearly 300 arrests have been made since Director Barry issued his edict to rid the city of all forms of gambling and vice. Of these 168 were for operating slot machines. The arrest of the head of one of the largest slot machine distributing agencies in the city followed the confiscation of seventy machines in a downtown store room. Police say they were being packed for shipment.

The officers were disappointed in their raids on places where pools on horse races were sold. Their attempts to gain evidence were unsuccessful, all paraphernalia, including telephone and telegraph instruments having been removed.

HOTELS TO BE RAIDED

PHILADELPHIA — (Associated Press)—Before leaving for his home early today to snatch a few hours' sleep, Brigadier General Smedley D. Butler expressed satisfaction with conditions as he had found them at the end of the fourth day of his campaign to rid the city of vice and crime.

"We shall drive right along," said General Butler. "Any knock that appears in the machinery will be taken out so that it will be run smoothly." He said he believed that most of the lawbreakers had been run out of the city and that the big job now was to keep them out.

The general lost no time in filling the places of the six police lieutenants and two sergeants suspended yesterday when at the end of the 48 hour limit they had failed to clean up their districts to his satisfaction but he said replacements will have to show they mean business. "They also will be given 48 hours in which to clean up and if they don't do it, they'll go too." Under the civil commission law, the suspended men will have five days in which to show cause why they should not be demoted. Unless they are successful in so doing, the general said they would be sent back to the ranks of the patrolmen and given beats in the various districts.

RESORTS CLOSED

While General Butler was shaking up the executive personnel of the police, raids on questionable resorts were being conducted in nearly every district in the city. They continued far into the night and resulted in scores of arrests and the confiscation of many stills and barrels of mash and high powered beer. Police lieutenants, after making the rounds of their districts reported that every known resort in the Tenderloin was closed tight and that not a single gambling house was operating.

Superintendent of Police Mills announced that the drive would be carried into hotels and clubs where liquor has been openly displayed. "The day is past," he said, "when, with the knowledge of police, banquets can be given in high class hotels, by the four hundred or anybody else, with a side room available where the guests can liquor up all they want to. We are going to raid these places in the same way as we raid dives and resorts in which liquor is sold."

GAMBLE ON LUCK WITH DEVIL

Tibetan Customs Are Described by Sir Charles Bell

GUIDED BY SHAKE OF DICE

Declares Satanic Majesty Usually Gets His Due

LONDON [illegible] Tibet [illegible] renowned [illegible] according to Sir Charles Bell [illegible] Society.

[illegible]

[illegible] pilgrims [illegible] journey.

In this [illegible] Charles [illegible] the festival in which the Grand Lama's representative throws dice with the devil's delegate for the luck of the year. If the devil won [illegible] supposed to triumph, and the people suffer, but if the Grand Lama wins, all is well for the year. The devil usually gets his due however, for his dice have only two spots on each face while the Grand Lama's dice have [illegible] spots on every face, and the game is for the highest number of points.

LIMA BEANE'S OPEN LETTERS

To My People

LET'S not get careless during this moderate spell following the recent frigid weather. Let's remember that this is ideal pneumonia weather. We'd all feel better of course if it stayed cold, but as long as it won't, it behooves us to be careful and not take chances with death.

LIMA BEANE

o o o

To the Kiddies

MY FRIENDS: Coasting time will be with us now and then for the next three months. I want you to have a good time and have all the fun you can within reason in coasting and skating. I'm not such an old fogey as to forget I was once a youngster myself.

But likewise, I want you to be careful. I want you to live to coast and skate for many more winters. To this end I want you to obey those whose duty it is to look after your safety.

I know it's pretty hard to have a nice coasting party broken up. However, let's get at the thing a little differently. Supose you get busy and see if our city dads can't reserve a place for you. Have your parents get after the city. You ought to have a place where you can coast in safety to yourselves and others. Let's see if the city can't find one for you.

LIMA BEANE

o o o

To the Board of Commerce

BOOSTERS: I attended your rousing meeting Tuesday night and want to thank you for a most enjoyable evening. I imbibed generous portions of advice, good fellowship, chicken and smoke. I was much impressed with the spirit of the occasion. I liked the way everybody dispensed with formality and got acquainted. I liked the evident sincerity and the enthusiasm with which a score of you told why you like the organization.

I only wish I could give everyone of our people a glimpse of the vision I caught at that meeting, could make them all feel the atmosphere of the meeting. I am sure that such an exhibition of enthusiasm and sincerity bodes well for our community.

LIMA BEANE

o o o

To Dog Owners

FRIENDS: If you have a dog that's worth keeping, he's worth paying the little license fee that's required to make your possession lawful. If you can't afford the license you can't afford the dog. If you don't pay the license fee, there is no way I can figure out where you are entitled to keep the dog. If you join the dog owning slackers, I'm going to tell Sheriff Crosson to send around a dog catcher. I'm for the dogs, tho, and I want you to give them a square deal.

LIMA BEANE

o o o

To the Weather Man

OLD TOP: I'm tired of the downpour. Neither am I in sympathy with the fit of temper you had last Saturday and Sunday. Be reasonable!

LIMA BEANE

o o o

To Joseph M. Butcher

DEAR JOE: I greet you. I have not met you, but I expect to soon. You have taken up your duties as master of my Boy Scouts organizations. May your work be as profitable to you as I am certain it will be to the boys.

You will find that I have about the finest bunch of youngsters to be found. They will measure up to your fondest expectations and will make your stay enjoyable if you are as fond of boys as I am.

LIMA BEANE

o o o

To a Lima Patrolman

DEAR SIR: I saw you not long ago order the driver of a horse to take the animal to the nearest blacksmith and have him shod. The horse had slipped and had fallen as he was driven about the streets of the city one icy afternoon recently.

I want to thank you and to congratulate you for ordering the horse shod. The driver of that horse was guilty of an unlawful and inhumane act, a fit subject for the Humane Society to deal with.

LIMA BEANE

o o o

To Vernon M. Riegel

DEAR SIR: Your decision barring movie films picturing Miss Normand and Miss Purviance amazes me. I had become accustomed to the censorship board making a lot of nonsensical rulings but I expected more from you. By what line of reasoning you take it upon yourself to say that I shall not have entertainment in which these young ladies take part is beyond me. Just because they became involved in an unpleasant situation is no reason for such action. If I desire to shun entertainment in which they have a part, I have that liberty. However, if I decide otherwise, I should have that privilege also.

LIMA BEANE

o o o

To Lynn Timmerman

DEAR LYNN: What you suggested the other day about a community chest strikes me as being pretty sensible. When you said that most of us are getting tired of "drives" you spoke a generous portion of truth. Somebody has to take the lead to get anything done. Inasmuch as you sprung the idea on this occasion, suppose you keep on springing it until you get some action.

LIMA BEANE

o o o

To the Auto Club

FRIENDS: Your plans for this year's automobile show sound good. I am glad to note that the enthusiasm with which you first entered into the plan to give us the "biggest ever" has not waned. If you get the response you deserve there is no reason why this year's show won't be the most successful one we've had.

LIMA BEANE

o o o

To William L. Hart

DEAR FRIENDS: I want to thank you for the words of good cheer you spoke at our Board of Commerce banquet the other night. Your advice to our people as to standing by our new form of government was most timely. What you said to us about getting behind the city government and boosting it instead of knocking, is just what we need. I am sure we are going to do the best we can to profit by it.

AT THE FIRESIDE

Not riches nor the pomp of fame out last
The splendor of a hearth-fire's happy glow,
Where fairy kings and princes come and go
And all the people of our storied past
Re-live their glad adventures, and the blast
Of winter is forgotten, and the snow
Melts in the sunshine which the blazes throw
And in the pictured shadows which they cast.

Who gives his children scenes like this to keep,
Shall be remembered when his gold is spent.
Tho winds may blow and cruel storms may sweep,
They shall not rust or stain his monument ;
Tho never mentioned in the books of fame,
The home he loved shall treasure long his name.

—BY DR. WILLIAM BRADY—

THE MEDICINE MOTHER USED TO GIVE

When I was a boy, writes a down easterner, I used to hear my mother talk of children having worms and she used to give us some kind of home medicine for them. Does modern practice recognize such a thing as worms in children, and, if so, are they caused by incorrect diet or perhaps excess of candy and sugar or sweets?

As a general rule mother's worm medicine didn't do any harm; frequently it did some good, tho I fear mother relied too much on the almanac and such like literature for her medical lore. At any rate she usually entertained very morbid notions.

Take, for instance, the notion that worms were caused by candy, sugar or sweets. Of course, any schoolboy or schoolgirl today knows that worms develop from eggs, just as turtles, fish, insects and birds do, and that the egg must come from a parent, and that it cannot arise anew without the previous existence of the parent worm. And since most folk today have been schoolboys or schoolgirls it is getting precarious to ascribe worms to sugar, candy or sweets.

One of the most popular worm medicines of mother's day generally came in a package with implicit printed directions; according to the directions the medicine had the phenomenal power of destroying and dissolving worms in the alimentary tract, so the purchaser could rest assured that the medicine destroyed the worms even tho it produced nary a sign of a worm. This medicine usually consisted of a good dose of some simple physic with some simple alkali flavored and sweetened. It often did good, for the sick child perhaps needed a physic and the alkali perhaps helped to relieve acute acidosis—a condition often mistaken for "worms" then and now—but if it ever did bring into evidence any worms it was purely by accident.

The symptoms which so clearly spell worms to the uneducated are in reality not encountered in most cases of actual infestation with worms, but are very commonly seen in children who in reality harbor no worms at all, so that it is unfair to the child, to say the least, to ply him with alleged worm medicine merely because he presents some of the so called worm symptoms. It is justifiable to treat a child for worms only when the worms have been seen or their eggs have been found by microscopical examination of the intestinal discharges. Anybody who perpetrates worm treatment short of this actual evidence of infestation abuses the unfortunate child even the alleged worm medicine in itself be harmless.

Most of the medicines which really are of value in the treatment of various kinds of worm infestation are a little too dangerous for unskilled persons to administer. Therefore I say that whenever a child is to be treated for worms the safe and humane policy is to submit the matter to a physician.

THIS LITTLE WORLD

—LONDON—

(By MILTON BRONNER)

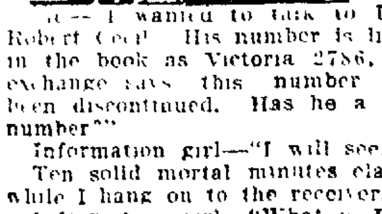

LONDON — (Special) — Experience is a sad eye-opener. You begin to wonder whether government ownership is an improvement on private monopoly. For instance, in England the telephone service is mainly governmental. And here is a sample of how it works.

Me—"Victoria 2786, please."

Four minutes elapse. Then

Telephone girl—"The number has been discontinued."

I get Information.

Me— I wanted to talk to Lord Robert Cecil. His number is listed in the book as Victoria 2786, but exchange says this number has been discontinued. Has he a new number?"

Information girl—"I will see."

Ten solid mortal minutes elapse, while I hang on to the receiver.

Information girl—"What is Lord Cecil's address?"

Me—"1, Princess Row, southwest."

Five minutes. Then:

Information girl, brightly—"His number is Victoria 2786."

Me, somewhat heatedly—"I told you seventeen minutes ago that this number was listed, but was discontinued. I wanted to learn whether he had been given a new number."

Information girl, sorrowfully—"That is the only number I know."

* * *

A newspaper in Rouen, France, the other day printed the following announcement:

"M. and Madame Gustave X, raticides and insecticides, have the honor to announce the birth of a son."

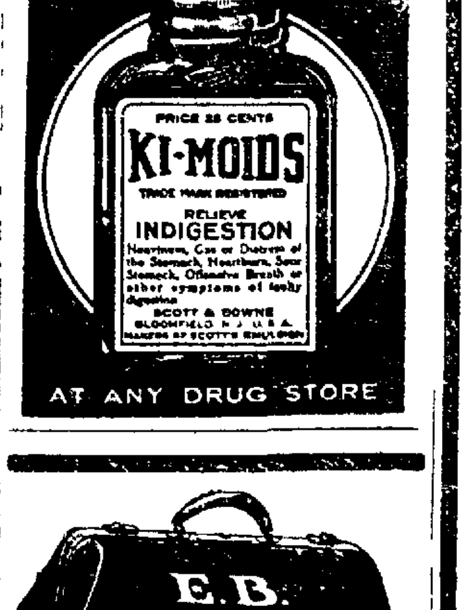

Real French thrift, that — one's business card mixed up with one's social announcements.

In the past few weeks before Christmas doubtless many of your Christmas magazines have had beautiful pictures showing quaint groups of English men and boys singing the "Christmas waits."

Well, all that is pretty nearly a thing of the past, too. Here in London there wasn't any snow. And the persons who sang the waits weren't picturesque at all—simply grimy, sordid beggars.

And the manner in which they "sang" murdered the old tunes and made you want to flee to the cyclone cellar.

MURDER TRIAL IS NEARING END

Caldwell Case Expected to Reach Jury Tomorrow

CONFESSION REPUDIATED

Accused Slayer of Sheriff Testifies in Own Defense

CALDWELL, Ohio — (United Press) — With only a few witnesses to examine today, the case of Elmer Farra, charged with the murder of Sheriff Charles W. Moore, November 29, 1923, while the officer is said to have been attempting to arrest Farra and George Siebenschuh, is expected to be argued and turned over to the jury tomorrow.

Taking the stand in his own behalf yesterday, Farra exploded a bomb when he repudiated an alleged confession to police here.

"It's terrible to lie, but I was hungry and thirsty and had to do something," Farra said he told officers when signing the alleged confession.

"If they hadn't starved me and drilled me with stories about how it would help, I wouldn't have signed that confession," he told the jury.

Officials during the trial yesterday admitted using the "starving" method of the third degree in an effort to win an admission of the killing of Moore from Farra.

Siebenschuh, companion of Farra, on the night of the alleged killing, testified Farra carried the pistol and shot the sheriff when Moore grabbed him.

Character witnesses from Byesville, Ohio, Farra's home, asserted on the stand that Farra prior to November 18, had the reputation of having a good character, but that he is of low mentality.

CHURCH WILL CELEBRATE DEDICATION OF BUILDING

Zion Evangelical Lutheran church will celebrate Sunday.

The present church building was dedicated ten years ago this week. In commemoration of this event special services will be held next Sunday.

The program arranged for the occasion includes a Sunday morning sermon by Dr. Otto Mess, president of Capital university, Columbus. Special music, with the choir in full vestment, also has been arranged. One of the numbers will be "Open to me the Gates" sung by Miss Vera Rouseulp.

Members and friends of the church, including all who have been connected with it in any way in the past, are especially urged to take advantage of the general invitation issued to the public to attend the commemoration services.

The present building was erected under the pastorate of Rev. D. F. Schultze who has been called to Washington, D. C.

WHERE HE WAS WE DON'T KNOW BUT LANKER'S BACK

Readers believe in the Lima Daily News. Wednesday a statement was published that Police Chief Lanker had disappeared. Friday morning a woman called headquarters and told the desk clerk she might be able to give some information concerning the chief's whereabouts if he had not been located. Lanker was on the job Thursday.

COUNTY GETS PRISONERS

Committment papers sending three state prisoners to the county jail were signed Friday by Judge Neil Young. Those committed were Joe Picha and Joe Nuza, bound over on $500 and $200 bail respectfully for grand larceny of clothing, and J. F. South, turned over to the grand jury under $500 bail for grand larceny of an automobile tire.

MRS. CATHERINE GRASS DIES AT SON'S HOME

Funeral services for Mrs. Catherine Gross, 85, who died Thursday morning at the home of her son F. G. Gross, of 403 W. Market-st, will be held Saturday at 9 a. m. at the residence. The body will be accompanied to Port Jefferson for interment.

Mrs. Gross was born in Steubenville, in 1838 and is the widow of the late Phillip C. Gross. She is survived by five children, C. M. Gross and Mrs. Jacob Wilt, both of Anna, Ohio; L. P., of Sidney; W. H., of Pemberton, Ohio and F. G. Gross, at whose home she died. Nineteen grandchildren and twenty-four great grandchildren also survive.

DISILLUSIONED MATES SEEK RELIEF IN COURT

Twin actions for divorce were filed in common pleas court Friday by a wife whose husband is alleged to have turned her from home, and a husband whose mate, left him without excuse.

Marjorie West accuses Richard West, 1009 Hughes-av, of refusing to work when he was offered a position, and with forcing her to leave home on five occasions. On the last occasion he refused to allow her to return.

The two were married in McMinnville, Tenn., in 1917.

Leo Fox, in a petition filed Friday, tells of his hasty marriage and subsequent disillusionment, with Viola Fox. The two were married in Monroe, Mich., in 1918.

Fox charges his mate kept company with other men and finally departed for good. Her whereabouts are unknown to him, he declares.

FIREMEN RECEIVE $1,615 PENSIONS IN SIX MONTHS

Pensioners of the fire department received $1,615.40 during the second half of 1923, according to the report filed with City Clerk Frank Hume by Mrs. J. F. Jones, deputy city auditor. The firemen's pension fund during that period loaned the police pension fund $300, accorading to the statement.

At the close of business Dec. 31, 1923, the firemen had just $36.90 in their pension fund. The alottment of $30 from the advance draw this month will enable the fund trustees to pay the January pensions, Clerk Hume said.

ALIENS EXHAUST SUPPLY OF CITIZENSHIP BLANKS

The stampede staged by aliens desirous of making application for naturalization papers has exhaused the supply of blanks at the clerk of courts office, Mrs. Clara Douglas, naturalization deputy, reported Friday.

Mrs. Douglas says more than 15 applications were filed in December. Ordinarily, she says, five or six a month are expected.

At least a half dozen foreigners have been told they must wait until blanks ordered from Cleveland arrive.

THE SHOT IN THE NIGHT

The writer of this story, seeking nocturnal adventure, walks toward London from Woolwich. He stops to rest in front of a long, low house of interesting architecture with front covered with white stucco. Tall French windows lead into the garden. In one of the French windows there burned a light.

A revolver shot is heard. The writer lifts the latch of the gate and tiptoes up the walk to peer into the lighted window. He sees a man seated in a desk chair. He steps into the room and finds the man dead. A door opening into a dressing-room is ajar and from that room comes the sound of sobbing.

NOW GO ON WITH THE STORY

There was a big armchair covered with crackling chintz, heavily flowered in blue. Upon it, or rather upon her knees on the floor and thrown face down upon the armchair, lay a woman, whose shoulders convulsively heaved as she wept. Evidently she had just risen from her bed, for over her dressing gown of green silk, unbound curly red hair flowed in heavy waves. I watched her for a moment, for there was something abject in her attitude. Her arms were outstretched across the chair; she made no attempt to wipe her tears. I had a queer feeling that she wept as if she were bleeding to death. Her plump, pretty white arms came out of the green silk sleeves. I was just about to go to her, when I perceived in one of her hands a revolver firmly grasped . . .

She'd killed him! That woman! It was she who had fired the shot! Obviously it was her husband whom she'd . . .

Swiftly, the domestic tragedy took form. A maddened woman, killing, once did I know why, the man who had spent a lonely night in the room beyond. But the tears interfered with the logical continuity of my thoughts. Murderess or not, she was crying, and crying so that my heart went soft with sympathy. I went up to her, laid a comforting hand upon a shoulder that heaved.

I expected her to start up with a scream, but I had forgotten how much she must need the comfort of human contact, for, instead, she suddenly raised her head, gripping my hand. Looking up at me with a stained, blotched face, she murmured: "For God's sake, don't leave me." She rested her cheek against my hand. Her sobs were louder now.

"Of course I won't leave you," I said, in a comforting tone.

"Oh, don't leave me," she said again.

"Now, try and pull yourself together," I remarked. "It's no use crying." At this her sobs increased so as to become almost screams. I realized what a foolish thing I had said. I didnt know what to do. I couldn't stay indefinitely to be discovered by the servants perhaps. So I used a heroic remedy. Freeing my hand by a violent effort, I seized her by the shoulders and forced her to her feet, shaking her vigorously two or three times. She gave me a moan, a gasp, and suddenly her tears stopped. She was staring at me with open eyes, her mouth still convulsed, but silent.

"Now," I said, "quick. You've no time to waste. What happened?"

She seemed to find speech difficult, but she tried: "I can't tell you."

"Oh, nonsense!" I spoke harshly on purpose. "It's no use trying to hide. I've just been through that room and I found your husband, at least I suppose it's your husband. . . . Don't begin crying again," I said angrily, as her mouth opened. "It's your only chance. Tell me what happened. You shot him, didn't you?"

"Yes" I caught the whisper.

"Well now, what's to be done?"

She was rapidly becoming composed: "There's nothing to be done except send for the police."

"I suppose I ought to," I said. "But I dont want to if I can help it. Oh, whatever made you do this?"

She was not listening to me, for she replied: "Is he dead?"

"Yes, he's dead," I told her. "I looked. But, by the way, you haven't asked me what I'm doing here." She shrugged her shoulders. "Yes, I agree with you; it doesn't matter. I was passing outside; I heard a shot, and I came in."

"Well, you'd better send for the police."

"Why should I?" I looked at her more carefully. Instinctively, she had wiped her face; no doubt it was her beauty which inclined me to mercy. I realized that when all was well with her, this woman would show most beautiful features. The rough, ruddy hair hung in tangled locks, as if it had been raveled out of its plaits, for a green bow hung at the end of a strand of hair. It grew low upon the white brow, where it made seven beautiful points of bright bronze. Under gleaming golden eyebrows, large green eyes were looking at me piteously, and a very red mouth trembled. "Look here," I said, "Suppose I'd passed your house five minutes later, I shouldn't have heard. I shouldn't have come in. Then you could have escaped. Now, look here, get your clothes on, and go as quick as you can; otherwise you're sure to be caught. You'll go to prison for years. Get your clothes on quick. By the time you're ready I'll be gone."

She seized my arm with her free hand, having evidently forgotten the revolver in the other: "Don't go," she whispered. Then tensely: "If you go, I'll shoot myself, too."

"But . . . but," I said, vaguely.

"Don't go. Yes, I killed him. I don't care. I couldn't help it. I had to. It couldn't go on. I couldn't stand it," she said in a louder note, which made me fear renewed hysterics. But suddenly she grew calm: "I don't know who you are, and I don't care. I don't care about anything. I don't care if they hang me. . . . I wish they would."

"Of course they won't hang you."

"Listen. Let me tell you. I want to tell you. I suppose you think I'm horrible because I'm a murderess. I couldn't help it." She released my arm, and sat down heavily in the arm chair, as if her energy deserted her, but all thru her story her voice was now audible, tho monotonous.

"The man you've just seen, who's dead in there, was my husband. We've been married for seven years. When we married I was 17, and he was 45. I didn't want to marry him. I . . . . . I wanted to marry somebody else . . . my boy Dick. My mother, well, she didn't like Dick. You see, we were what is called nice people, and Dick was third mate on a ship in the merchant service. Mother said he wasn't . . . . the right class for me. They wouldn't let me marry him. He was only 21, and he wasn't earning much. Oh, I was bad, bad."

NO DOUBT IT WAS HER BEAUTY WHICH INCLINED ME TO MERCY.

She stopped, and I said: "How do you mean, bad?"

"Oh, I ought to have stuck to him. I promised him. I told him I'd wait. But they wanted me to marry . . . . the man I married. He was rich, very rich, and we were so poor. Oh, I ought to have stuck to him, my boy Dick . . . but they were too strong for me. I couldn't. I was only 17. Oh, you do understand, don't you. I couldn't. They were too strong."

"Yes," I said. "I understand. Go on."

"Well," she went on, "I married him. I couldn't help it. Seven years ago. He wasn't unkind to me at first. He said he loved me, and I suppose he did. And I tried to love him, too. I did my best; I swear to you I did my best. But I couldn't. I was always that king of my boy Dick, far away, and the dreadful letter he wrote me when he heard that I'd married. He was right, but it hurt me dreadfully. For a year or two things went well enough. I was very wretched, but I didn't show it. And my husband, he seemed pleased. But one day, I don't know how, he found out about Dick. I don't see why he minded. I'd married him, that ought to have been enough for him. I swear I was a good wife to him; I swear to you I was. But he got jealous. Jealous of my poor boy Dick, so far away, whom I hadn't even seen since I married. My husband began to talk to me about Dick. Well, I tried to say it was just a boy and girl affair, but my husband understood. He couldn't help seeing that I didn't love him. He thought it was Dick's fault, and so it was in a way. He began to hate him. He was jealous of him, not because I loved him. He hated Dick, and he hated me. Oh, you don't know what it's like. I hope you'll never know. To live with somebody who's got a grudge against you and who's trying to make you suffer, trying all the time. I don't know how he did it, but, you see, he was a rich man. My husband began to take an interest in shipping. He bought shares in ships and opened an office. And he made a lot of money, for he was clever. Oh, I couldn't bear it."

"But how do you mean?" I said. "I don't quite understand."

"He began to follow the movements of Dick's ship. It was quite easy. He used to come in in the evening, and say: 'The Cheronia has been sighted off Sandy Hook. Would you like to send Dick a wireless, darling?' I didn't say anything, but it hurt. Or again, he told me when Dick was promoted to second mate. He found out, he told me. I don't know; he must have made spying a business. He told me how much Dick was getting per month. He even invented stories about Dick and other women, month after month, year after year. Almost every day, he had something to tell me. I gritted my teeth together, tried not to burst out, but it was too much. My husband was using Dick as a cant phrase. Instead of saying: 'I forgot my umbrella today, how careless,' he'd say: 'I'm just as careless as Dick.' And, in a restaurant, he asked me whether I'd like pudding a la Dick. But I didn't get used to it, it only got worse and worse. Year after year. I was going mad with it; perhaps I am mad. But it didn't stop my heart bleeding, perhaps I could have stuck it out, however . . . perhaps he'd have got tired of it. For my husband loved me, you know in his way; indeed it was always after I'd cried, when I lay weak and sick with hysterics, that he'd take me in his arms and cover me with kisses which I hadn't the strength to resist.

PATTERN FOR TODAY

A GOOD STYLE FOR A SCHOOL DRESS

4602. This model is finished in "slip style" and has the new flare effect in the skirt portions. As illustrated plain and contrasting material may be effectively combined or one could use wool crepe with wool or yarn embroidery for decoration. It is also a good style for velvet.

The pattern is cut in 4 sizes: 6, 8, 10 and 12 years. A 10 year size requires 3 1-4 yards of 27 inch material of one kind. If made as illustrated it will require 1 yard of figured material and 1 1-2 yard of plain material 36 inches wide.

Pattern mailed to any address on receipt of 10c in silver or stamps.

THE TANGLE

An Intimate Story of Innermost Emotions Revealed in Private Letters

LETTER FROM PAULA PERIER TO JOHN ALDEN PRESCOTT

CHER AMI:

Our good friend, Sydney Carton, has told me alw about my baby, and my heart was so hungry to hear of him.

He also has said some very disquieting things.

John, you are not going to keep my baby from me forever. Now I can be his mother. Now I can take care of him. Now I want him. Oh, I can never tell you how much I want him.

When I loaned him to you I had heard that your wife was very ill and that only a baby to cuddle in her arms would save her life or at least restore her reason.

Now she is well and some day soon perhaps she may have a baby of her own, while my arms are empty for mine.

But it is time that changes many things, John. Once I thought you should have a part of the care of my baby, especially as it was impossible for me to even feed him. Now I know I was wrong. He was my baby. Mine alone and I should have cared for him even at the cost of my own life.

I was not quite sane, John, when I laid him outside your door that night.

But I am sane now.

I want him, he is mine. Give him back to me. He is all I have. Even tho the world says I am rich, I am the poorest mother this earth holds, for I have given my child for the money and fame of a cold world.

Sydney has probably told you of my great success in moving pictures. There are compensations, John. I never would have been able to have pictured love had I not loved. I never would have been able to have pictured suffering had I not suffered. Everything that comes to us, John, comes to us for a purpose.

I will confess that when I helped to write my first picture I was still hurt and unhappy and I wanted to make you suffer. If you have seen it you will understand. No one else will do so, for no one else in all the world, except Syd, knows our story.

I love my work and I am deter- of my life, for I have resolved that no one shall ever be able to make me again as unhappy as you have made me.

Don't worry, John, I will not make you any trouble unless I find that I cannot live without my baby.

Syd tells me he looks like me. That is not strange, for at that time you were more than God to me.

PAULA.

KIDS END FEUDS MAN FASHION

Greenwich Village Youngsters Fight it Out in Ring

GIRLS CHEER FAVORITES

Special Reserved Section Occupied by Female Rooters

NEW YORK—(Associated Press)—No longer do the kids of Greenwich Village resort to street fighting to settle their disputes, for the Greenwich House, 27 Barrow-st, in the section which developed Gene Tunney, light-heavyweight champion has instituted a new kind of settlement work which promises a successful future.

Recently under the direction of Barney Hymen, physical director of the settlement, a boxing show was held at which youngsters ranging from seven to 15 years of age settled their street feuds in a 16-foot ring. All ring equipment used in regular bouts, including padded gloves, towels, trainers, judges, lights, timekeepers and the gong were on hand.

Barney Hymen acted as third man in the ring after several youngsters had diplomatically declined that honor. Mike Rabino, a violin instructor and Henry Catena, champion flyweight of the National Guard, served as judges.

The first bout produced the Wagner twins Joe, six, and Jimmy, eight. The brothers settled all family differences, with Jimmy capturing second place.

Kid Brady from West 11th-st and Young Durkin of West 10th-st fought for the flyweight championship of the Village, honors going to the latter after an extra round was necessary to decide the winner.

DECISION BOOED

The crowd booed the decision with all the disgust of a regular fight crowd.

Kid Bayonne, known as the Tiger of Thompson st, was worsted by Young Lamele, otherwise the Wild Man of Thompson-st was vindicated in this defeat however, when Chris Wagner of Greenwich House won a decision over Kid Chesty of the Boys' Club on Avenue A.

In the next bout Kid Lefty of the Boys' Club met Midget Reed of Greenwich House. The bout was billed as the champion fleaweight contest and was won by Reed on a technical knockout.

Johnny Clegg, representing the Greenwich House, succeeded in making his opponent, "Silver Dollar," of University Settlement, look like the proverbial 50 cents.

The main bout brought together Jack Duffries, University Settlement and Sol Presto, Greenwich House. The bout was fast and went to Duffries.

Girls of the Village occupied a special reserved section and joined the male rooters in cheering their favorites.

Miss Elsie McCormick, one of the settlement workers, attended and expressed herself as pleased with the bouts. More will be held in the future.

CIVIL SERVICE JOBS ARE OPENED TO SERVICE MEN

Civil service examinations that have been closed to former service men unless certain rigid requirements could be met, have now been thrown open, officials have announced.

It is necessary, however, that there be openings in the class of service and that the service man in the application within one year after his discharge from the service or from a hospital in which he has been confined.

Men trained by the veterans' bureau can apply for jobs for which they have been trained, providing they do so while in training or within 90 days after completing the work.

WEATHER IS NO BAR TO LIMA MUSICIANS

DESPITE the disagreeable weather a large number of music lovers gathered in Memorial Hall Thursday afternoon and heard the delightful Edward MacDowell program presented by the Woman's Music club. The very artistic program was arranged by Mrs. John Roby and Mrs. Harry Macdonald.

Following the opening number, a piano duet [illegible] played by Mrs. Macdonald and Mrs. [illegible] Dexter, Mrs. Roby gave an excellent sketch of the life of the great composer MacDowell, who [illegible] the entire country [illegible]. MacDowell [illegible] said to be the first great American composer [illegible] the founder of the [illegible] colony [illegible] creative artists [illegible] to be done with their work. The wife of the composer [illegible] there and is an [illegible] MacDowell [illegible]. Mrs. Roby also gave a short explanation and analysis of the program to be given.

A vocal quartet, composed of Mrs. Joe Davison, Mrs. John Carne, first and second soprano, Mrs. Charles Black, contralto and Mrs. R. D. Kahle, alto, sang two delightful numbers, "Cradle Song" and "Dance of the Gnome" "To a Wild Rose," MacDowell's ever-popular composition and "The Beaming Eye" were sung by Mrs. F. J. Gooding, Mrs. C. S. Baxter, first and second sopranos, and Mrs. R. O. Woods, contralto and were particularly lovely. Mrs. Clarence Klinger's two vocal solos, "Deserted" and "The Blue Bell" were very well received, as are all of Mrs. Klinger's solos.

Miss Geraldine Evans played two charming piano solos, "Improvisation" and "Polonaise."

The first appearance of the Lima Orchestral club was made at the matinee recital Thursday afternoon. Mrs. Harry Macdonald is the leader and pianist of the orchestra. Those playing Thursday were Mrs. G. C. Dunifon, first violin, Miss Aileen Scott, second violin, Charles Curtiss, viola, Mrs. Andrew Dimond, cello, George Metheim, flute and Harry Foltz, percussion. They played MacDowell's "Woodland Sketches."

The next event on the calendar of the Woman's Music club will be a joint recital of Albert Spalding, noted violinist, and Olga Samaroff, on January 17th at 8:15 p. m.

SUSIE SMART'S ADVICE

Dear Miss [illegible]:

I have [illegible] written [illegible] my trouble [illegible] you probably [illegible] help me.

I am a [illegible] girl of [illegible] years of age. [illegible] dance but the [illegible] do. [illegible] work and try [illegible] I have a steady friend who [illegible] my parents [illegible] well [illegible] and I always [illegible] If a girl has a friend should she [illegible] her parents tell her who to go with [illegible].

Should I stay home until I am [illegible] years of age. [illegible] My parents [illegible] me very well. [illegible]

Please answer this letter as soon as possible as I am in deep [illegible].

How is my writing?

DISAPPOINTMENT.

DON'T think of leaving your home, and how ridiculous it sounds for you to say that your parents are jealous of you! They do not mean to dictate to you who your friends should be but they should be allowed to say who are the proper people for you to associate with. Perhaps the whole trouble is that you refuse to obey your parents or listen to their good judgment. Remember your parents know best and it is for you to obey and do things as they ask. I agree with you however in the fact that you are too young to go with but one boy.

There is no harm in going riding with your friend that I can see, however, if your parents do not wish you to, abide by that decision.

My advice to you is to go about more, go with the girls and if your parents permit, join the crowd of boys and girls when you have a chance. I hardly agree with you that a dance is no place for a decent and respectable girl because there are dances enjoyable and proper. This is of course, if a young man escorts you there.

Good.

• • •

Dear Miss Smart:

[illegible]

Now [illegible] you [illegible] to [illegible] he [illegible] was [illegible] Maybe he was [illegible] he wasn't [illegible] no doubt will [illegible] haps he [illegible] call or perhaps he [illegible] give him a chance to explain.

[illegible] his visit here Christmas [illegible] concerned [illegible] don't drop any one's friendship on that account.

WHY WOMEN LOOK 60 AT 40

Will dark circles under their eyes, sallow complexions, drawn expressions, drooping shoulders, a dragging step many women of forty have the appearance of women of sixty. In many cases this condition is caused by overwork or neglect of such warning symptoms, headaches, backache, nervousness, displacements, and irregularities which indicate ailments peculiar to women. If all women so afflicted would only rely upon Lydia E. Pinkham's Vegetable Compound it would restore them to a normal healthy condition and the premature signs of age will soon disappear.—Adv.

Mr. and Mrs. R. D. Hubbard will receive a group of friends at their home, 108 1-2 S. Elizabeth-st, Friday evening. Five hundred will be the evening's diversion, four tables to be arranged for play.

Guests of the Hubbards will be Mr. and Mrs. Elmer Barth, Mr. and Mrs. H. C. Hoffman, Mr. and Mrs. John Allgire, Mr. and Mrs. P. A. Kahle, Mr. and Mrs. Robert Wilson, Mr. and Mrs. E. G. Atkinson, Mrs. Frenk Chew and Mrs. C. S. Jones.

SCOUTS ARE BUSY WITH TESTS SEEKING ADVANCE

DELPHOS — Boy Scouts of troop two are busy taking tests to advance themselves in rank, Ed Mauk scoutmaster of the troop said Friday. The troops are limited to three patrols of eight men each. All the men are enthusiastic towards becoming first class scouts.

L. M. Gorrell, scoutmaster of troop one, stated that every scout is required to take one test a month and if this request is not complied with, the scout automatically drops out of good standing. In troop one there are five first class scouts.

The meetings are held every Monday night, alternating at Franklin school and Jefferson high.

FARM EXODUS HALTED, AUCTIONEERS ASSERT

CONTINENTAL — The farmer is coming back.

This is the opinion of local auctioneers, who say there are far less farm sales slated for this spring than last.

They declare the exodus to the city is at an end and that many who sold out and quit farming last year, are going back to the old farm.

Those at the head of farm organizations look upon the situation as most encouraging, they say.

COMING MARRIAGE ANNOUNCED

COLUMBUS GROVE — Announcement has been made of the coming marriage of Miss Charlotte Kissell, daughter of Mr. and Mrs. John Kissell and George Verhoff of Columbus Grove. The wedding will be an event of the next few weeks. Miss Kissell has been employed as a deputy in the Columbus Grove postoffice since the administration of Grant Bogart.

HERRON VISITS SON

COLUMBUS GROVE — W. G. Herron, whose wife was killed instantly when the automobile in which she was riding with her son, Ernest Herron, his wife and young daughter, of Detroit was struck by a train at the Big Four crossing in Huntsville, Jan. [illegible] has gone to the home of his son, Elbert Herron in Bellefontaine, to spend the winter. Herron is in a serious condition being almost an invalid.

DAIRY FEEDING SCHOOL HELD

KALIDA — A dairy feeding school was conducted here Friday afternoon under auspices of the Kalida farm bureau in the Kalida-tp house. Farmers interested in dairy cattle were invited to attend. J. W. Henceroth, Putnam co farm agent was in charge.

WATER SUPPLY RETURNS

CONTINENTAL — The electric light and power service turned off last Saturday at approach of the cold wave has been restored. Inasmuch as the city water is pumped by electric power the town was without water while the electric service was suspended.

CLOTHING CAMPAIGN ENDS

DELPHOS — Clothing collected by the St. Elizabeth Benevolent society for Germany's poor has been classified and is ready for shipment to the society's headquarters at Toledo. Response during the three days of the campaign was more generous even than that in behalf of the city's poor at Christmas time, says Mrs. A. E. Wegner, president.

OTTOVILLE RESIDENT DIES

OTTOVILLE — Funeral services will be held Saturday at Immaculate Conception church for Joe C. Flatz, 58, who died Wednesday. Interment will be made in St. Mary's cemetery. Flatz is survived by his widow and one daughter, Mrs. August Rellinger.

CAMP FIRE GIRLS PLAN HIKE FOR SATURDAY

DELPHOS — The Watasana troop of Camp Fire girls met at the home of Margaret Gallagher Wednesday evening and arrangements were made to have a hike to Tourists Park Saturday afternoon.

Orders were drawn up and sent in for uniforms in which the girls plan to give a public demonstration the latter part of January.

A new troop is being formed and the plans, under auspices of Miss Mildred Murray, are well underr way. The troop will be made up of girls between the age of six and ten.

Miss Krutz has charge of the troop composed of high school girls and they are planning exercises to be given about the same time as the Watasana division.

MEMBERSHIP COMMITTEE TO ENTERTAIN KIWANIS

DELPHOS — [illegible] membership committee will provide the entertainment for the club at next Monday's meeting. The committee includes E. Steinle, Joseph Jettinghoff, A. L. Garman and J. F. Weidman.

The program will include an address by J. F. Cover, Lima banker, whose subject has not been announced. Other numbers are: Violin solo by Miss Nina Weidman, accompanied on the piano by Miss Esther Cordell; vocal solo by Raymond McKowen.

Various committees will alternate in arranging programs of the coming meetings, the attendance committee to follow the membership committee.

"GET OUT" DRUNKS ARE TOLD

DELPHOS — Two "canned heat drunks" arrested in a railroad yard here were given 15 minutes to get out of town when they faced Mayor George N. LeaSpre.

AUTO TAGS MISSING

DELPHOS — Again the citizen automobilists of this city will wait some time before they obtain their license tags, according to a telegram received from Thad H. Brown, secretary of state, Columbus to the effect that the time would again be extended to Jan. 31. The extra shipment of plates ordered by E. Steinle, local registrar had not yet arrived Friday morning.

NEW SOURCES OF OIL FOUND

Discoveries Are Made Almost Daily in Russia

EXPEDITIONS INVESTIGATE

Fluid so Plentiful it Can be Squeezed from Clay

MOSCOW — (Associated Press)— Soviet Russia has been unable, so far, to do much towards the rehabilitation of her existing mines, but scarcely a day passes that some new discovery of mineral or oil deposits is not reported.

The Russians themselves have long known that various unexplored regions of the north and Siberia hold some of the richest metal deposits in the world. During the past year dozens of scientific expeditions have been sent out to investigate the possibilities of these regions.

From Vladivostok it is reported that the commission of Professor Poleroy, which has returned from Kamtchatka, announces it was successful in finding great sources of oil there, so plentiful that it literally could be squeezed from the clay.

COAL DISCOVERD

Another commission explored the Tongussky basin, near the rivers Yenesei, Lena and Aangaro in Siberia. At Novonikolaievssk this commission announced the discovery of great coal fields in the basin. Platinum and graphie also were found.

Explorations are continuing in the Kola peninsula, where last year a number of hitherto unknown metals were discovered, in the mountainous districts between the Arctic and the White Sea. These metals are supposed to have been of meteorogical origin.

Work also is continuing in the exploration of the huge field of magnetic ore in the Kursk province in South Central Russia, which for a number of years has been known to exist and was extensively studied by scientists as the "Kursk Anomoly." In this region the magnetic strength of the ore is such that compasses point towards it instead of to the magnetic pole in the north. Estimates as to the quantity of iron ore in the field vary but sufficient boring has been done to indicate that it is probably the largest individual iron deposit yet discovered.

While some of the more enthusiastic scientists have recommended immediate developent of the newly discovered natural wealth, the government's economic policy seems to be to put existing mines in good shape before putting any of the limited amount of money at its disposal into properties which may not produce for some years.

GRANT MITCHELL'S latest picture, "Radio-Mania" opened Thursday at the Quilna theatre and proved [illegible] of its unusualness of theme and spectacular settings.

The producer of "Radio-Mania" has [illegible] of make believe and has [illegible] give [illegible] band called [illegible] their [illegible] [illegible] tale.

[illegible] how he [illegible] for an [illegible] with which he [illegible] dio [illegible] cates with [illegible] cret of [illegible] and clay [illegible] moment, [illegible] clock, which [illegible]

This picture also brings to the screen a new type of feminine charm in the person of Margaret Irving, leading lady, who left the Ziegfeld Follies for a sojourn in "screenville" and vaudeville.

A Ben Turpin comedy "Asleep at the Switch" and an Aesop Fable are added features of the bill.

(BY CADDIE)

THE Keith Vaudeville which opened at the Faurot Thursday afternoon, offers several novelties. This is particularly true of the Cotton Pickers, a company of [illegible] men and one woman, who [illegible] replete with good [illegible] pleasing line of [illegible] peculiarly clever dancing. It proved as pleasing to the [illegible] anything that has been [illegible] shows that this [illegible] entertainment is far from [illegible]

The Leon Ponies proved a delightful [illegible] The [illegible] well broken, but the best [illegible] was a mule every circus [illegible] to see and delights in, [illegible] the untrainable mule. There were two individuals that were seeking the prize by staying on the back of the mule [illegible] but both [illegible] were [illegible] hearty laughter.

The remainder of the bill is made up of [illegible] comedy, acrobatic [illegible] Tim & Ward do [illegible] wholly made up of [illegible] manipulations and [illegible] unlike the usual [illegible] and savors more [illegible] the work than the [illegible] Carmen & Rose [illegible] Wamsley & Keating [illegible] comedian, very funny and kept the audience in roars of laughter [illegible] on the [illegible]

The show [illegible] playing one and holds over until Sunday night.

Bachman's Band Coming

A GENUINE treat will be offered to Lima amusement seekers next week when Harold Bachman's Million Dollar band will appear at the Sigma theatre in additions to its regular program.

Playing popular music as well as the best jazz bands and alternating these selections with solos by various instruments and comedy, novelty and classical selections, the organization will present a program which is guaranteed to please everyone, from the most fastidious music lover to the person who feels he can appreciate only popular music.

Among the well known soloists with the Million Dollar Band is Bert Brown, famous cornet soloist, who was associated with Pryor's Band for thirteen years. He came to the Bachman Band three years ago after two successful seasons with Sousa.

San Carlo Opera

ON Saturday evening The San Carlo Grand Opera company will present Puccini's immortal La Boheme, at Memorial Hall. It is truth to state that this is the most [illegible] opera organization outside New York and Chicago. There is no other so pretentious traveling. It is complete in every department. In the cast of Puccini's opera will be heard Anna Fitziu, Sofia Charlebois, both noted sopranos; Collin O'More, noted operatic tenor and Charles Galagher, all luminaries in the operatic world. The production is complete in every detail.

Lew Kelly Coming to New Orpheum

LEW KELLY, with his big show will be at the New Orpheum, next week. Advance critics speak very highly of the entertainment. Kelly is as well known on the other side as he is in America. He made a hit in London, one paper speaking of him stated in epigramatical phrases as "paradoxical nonsense which has dangerous affinity to sense. He is strangely fascinating and in large doses uncomfortably unbinding. The public welcomed it as a brand new humor." This company will open at Sunday matinee.

Coming Attractions

COMING attractions at the Faurot include "The 1st Year," the Sistine Choir in a return engagement and Robert Mantell and his company of Shakespearian players in "Shylock."

"The 1st Year" will be here Jan. 15, the Sistine Choir Jan. 16 and Mantell on Jan. 18, it is announced.

City Checks up on Some Data With Grand Rapids

Why election expenses should be 12 cents per capita greater in Lima for 1924 than they are in Grand Rapids, a city of 137,000 people is one of the things the city commissioners are trying to figure out as the time comes to pass the 1924 appropriation ordinance.

Figures compiled by City Manager Bingham, show that the 1924 elections will cost Grand Rapids $22,067 or 16 cents per capita while the Lima cost is $14,370 or 28 cents per capita.

Other interesting comparisons made by the city manager as the result of receiving the Grand Rapids 1924 budget are:

Grand Rapids spends $1.06 per capita for the support of its public library while Lima spends two cents per capita

Grand Rapids spends $1.63 per capita while this city spends seven per capita, for parks.

The Grand Rapids budget, the city manager says, has a lot of other interesting data which indicates that Lima is far behind the hustling Michigan city in the matter of looking after the public affairs with proper appropriations.

RIGHT OF WAY WON BY TAX BILL

Bonus Bloc is Defeated in Republican Conference

COMMITTEE IS INSTRUCTED

Ordered to Report Revenue Measure by February 11

WASHINGTON. — (Associated Press)— Instructions have been given the house ways and means committee to report the tax bill on or before February 11. After that date it is to take up soldiers' bonus legislation to determine whether an adjusted compensation bill should be reported.

This program was decided upon last night at a conference of house republicans who refused, however, to pledge themselves to the passage at this session of congress of either tax or bonus legislation.

Representative Longworth, the party leader, with others who believed taxation should have the right of way, checked the faction advocating bonus action at every turn.

At the outset of the meeting which was behind closed doors, Longworth proposed that the ways and means committee be instructed to continue consideration of the tax bill to the exclusion of all other general legislative propositions," with a view to making a report by February 11, after which time it could proceed to consideration of bonus legislation.

AMENDMENTS VOTED DOWN

Two amendments offered to the Longworth resolution and both were rejected.

Representative Fairchild of New York, proposed a stipulation that a bonus bill be reported "as soon as possible." This proposal was rejected 106 to 87. The other amendment offered by Representative Fish of New York, a war veteran, fixed February 25 as the latest date for a report on bonus legislation. On a roll call the amendment lost 109 to 87.

The Longworth resolution then as adopted by viva voce vote, but the soldiers bloc made one more effort to secure favorable action on the bonus. Fish proposed that the conference accord itself in favor of enactment at this session of congress of both a "reasonable" tax reduction bill and a bonus measure. A motion of Representative Lehlbach of New Jersey, however, this proposal was tabled, 97 to 94.

Routed in the conference, members of the former service men's group declared they would take the fight to the floor of the house and would attempt to have the ways and means committee discharged from consideration of the bonus bill. As they pointed out, would bring about a record vote which would include Democrats as well as Republicans.

Victorious in the first showdown on the taxation and bonus questions, Longworth said the tax bill would be given right of way in the house when it is reported and its consideration would be expedited.

With its new instructions, the ways and means committee continued consideration today of the administrative features of the treasury tax bill and members are hopeful that its phase of their work can be completed by the middle of next week.

The committee has been proceeding under a program which called for deposition first of the administrative provisions of the bill, then as to a division of the bonus, and finally action on rate schedules in the tax measure.

MAN CITED BY GIRL PAYS FINE ON LESSER CHARGE

M. Lorena Durbin, clerk in Geo. Crossen's office, performed special service as a deputy sheriff Thursday afternoon when in absence of other officers she conducted George Stouffer, a prisoner, from the county jail to the court house.

Stouffer, who previously had entered a plea of guilty to a serious charge made by Opal Rupert, 16, changed his plea to one of guilty on a lesser charge of assault and battery.

He was formerly a lodger in the girl's home. The charge was made following an altercation between Stouffer and members of the household.

Judge Becker assessed a $50 fine, and remanded the defendant to jail when he could not pay. He also instructed the sheriff to seek other lodging when he was released.

SCHOOL PAPER'S EDITOR AND MANAGER NAMED

DELPHOS — Garland Hick was named editor of the "Delphi", Jefferson high school year book, and Milton Wolfe was appointed manager of the annual. Appointments were made by the faculty, and these two students will meet with the faculty Friday to decide on the other members of the staff.

C. C. Warner, principal of Jefferson, stated that preliminary work on the book would begin Feb. 8 and urged interest in the contest to be given later on by the American Chemical Society. He said that the Delphis were very much interested in the contest.

STRAY HORSE CAPTURED

A stray horse running over lawns in Richie's was captured Friday morning by Officer Roney and is held by police pending claim of the owner. It is believed the animal broke out of a barn.

PICTURE STORY OF MAIL COMMENDED BY WORKERS

The educational campaign put on by the postal employes' national organization, planned to cause an increase in wages, a Saturday half-holiday and better persion laws, will come to a close in Lima the last of this week and the first of next with the showing of the picture, "The Mail Man."

The picture shows the actual working of the great postal system, the labors of the employes and their responsibilities, interwoven with a dramatic plot which is said to be very good.

Postal workers have solicited aid from each congressman in passing these provisions, and where they formerly pleaded ignorance of the postoffice work, they have been thoroly informed and can plead that no longer.

The state association of letter carriers will hold its convention in Lima on Labor Day and the day preceding it, in 1924, it is said. Carriers and inside employes are eager to have the public view this picture that a true conception of their work may be gained.

1924 COMMERCE PLANS ARE UP

Board to Elect Officers at Friday Meeting

Directors of the Board of Commerce met Friday at 4 p. m. to elect officers, name an executive committee and plan the 1924 work.

It is held certain that James E. Morton will be retained as managing secretary as directors are unanimous in their belief they have told the Lima News, that Morton is the man for the place.

Under the new by-law apopted at the annual meeting of the members the executive committee must contain not less than 15 members and not more than 20 and probabilities are, Morton said, that the limit will be named in order to make the committee fully representative of every phase of Lima's life.

The clergy of the city have been made members of the board, without dues, according to a notice sent to Rev. E. Bruce Jacobs, chairman of the ministerial body.

Following the selection of the executive committee the report of R. E. Dunn touching recommendations for the 1924 budget gets the right of way for discussion. It is hoped before the meeting is over to get the budget proposition adopted, Morton said.

Another matter scheduled for discussion during the late afternoon is the traffic bureau. Some members of the board feel that the organization ought to take over the traffic bureau and operate it as part of the board's service to the members while others are said to favor the proposition of leaving the bureau as it is now, operated by private parties in conjunction with the board.

Harry C. Sterling, chairman of the committee which has been studying the traffic bureau problem, is expected to give an outline of what that special committee believes to be for the best interests of the board.

Reports on the attendance of executive committee members during 1923 were to be heard and then the meeting thrown open for a general discussion of 1924 plans.

HARROD "EXAMS" HELD

Midyear examinations of the Harrod high school have been completed, according to reports from that town and the papers graded. No school sessions were held Friday. The second semester will start Monday, Jan. 14.

LOSES WIFE AND JOB, TOO

Mrs. Sanderson's Manager Fails in Reconciliation Move

RETURNS, IGNORED BY MATE

Resigns Position to Win Back Spouse, Too Late

MADISON, Conn.—(Associated Press)—Ellsworth Bassett, clam digger, house painter, chauffeur and orange grower, has failed in his first efforts to become reconciled to his wife, basketball player and postal clerk from whom he became estranged when he went to work for Nina Wilcox Putnam Sanderson, novelist, whose unsuccessful efforts to obtain a divorce in Rhode Island are being investigated by the attorney general of the state.

Bassett, summoned by Mrs. Sanderson from her Florida orange grove which he had been managing, was ignored by his wife as he called last night at the postoffice where she was working. He went straight to the postoffice after visiting Mrs. Sanderson in New York and resigning his job. He explained his resignation as due to unfortunate publicity which had been given him and Mrs. Sanderson. The novelist had telegraphed him to come home and arrange his domestic affairs.

MISTAKE CLAIMED

He told townspeople that Mrs. Bassett was mistaken in her views of his relations with the novelist. Mrs. Bassett has said that Mrs. Sanderson asked her to get a divorce and it has been said by her lawyer that she contemplates no legal proceedings of any kind involving her husband.

Mrs. Bassett kept in the back of the postoffice behind a partition while her husband was out in front trying to see her. After waiting some time Bassett left the office and later Mrs. Bassett was driven in a friend's automobile to her mother's home. Bassett said he had no idea where he would stay. His clothes were all at Mrs. Sanderson's home, he said, and having come from the warm climate of Florida, he needed his overcoat.

HOMES FOR CHILDREN OBJECT OF DISCUSSION

The boarding home committee of the Allen-co Child Welfare association met at a luncheon in the Lima club rooms Friday noon. One member fro meach of the charitable organizations was present, and plans for the placing of dependent children in responsible homes were discussed.

The executive committee of the association will hold a luncheon in the Lima club room Friday, Jan. 18, to discuss the plans for the near future.

CHILD, VICTIM OF BURNS TO BE BURIED SATURDAY

Funeral services will be held Saturday at 2 p. m. at Liberty Chapel for Betty Louise Stauffer, 18 month old daughter of Mr. and Mrs. Charles Stauffer of Bath-tp. Burial will be made in the church cemetery.

The child died Wednesday night at the City hospital from burns suffered the day before when it fell into a pan of boiling water at the home of the parents.

SENTENCE SUSPENDED IF PRISONER GOES TO WORK

William Brown, negro coal heaver who pleaded guilty to picking the pockets of John O'Dowd, in the Rescue home, Sept. 2, was given a suspended sentence in common pleas court Thursday.

Brown has been in jail since the affair. He was accused originally of stealing a sum amounting to $400.

A plea of guilty was entered by Brown during the progress of the trial.

Judge Becker, after learning Brown had a crippled wife and child, told him he would give him a chance. A sentence of one year in the penitentiary was suspended on condition of good behavior and that the defendant go to work.

A local coal company, it is claimed, has promised to give him a job.

BOOZE WAR STILL ON IN ILLINOIS

Troops Remain on Riot Duty in Williamson-co

MARION, Ill.—(United Press) — An agreement reached on liquor in general, Williamson-co's "booze war" simmered down today to a fight between Glenn Young, "prohibition czar," and the forces of Sheriff George Galligan, over raids on saloons and homes in the county.

Three companies of state troops are still stationed here and at Herrin. Sheriff Galligan will not ask for their recall for a day or two, it was said.

Samuel Stern, Ku Klux Klan cyclops, and chairman o fthe Williamson-co board of supervisors, promised cooperation with Sheriff Galligan.

Future warrants for liquor raids will be issued by Galligan and Stern instead of Young, whose militant leadership of "flying squadrons" of Klansmen under federal deputization, without the knowledge of the local authorities brought on conditions that caused Galligan to ask the governor to send the militia.

Young declared he would retain leadership of the Klan raids and would continue them "with or without federal authorities."

John Layman, Galligan's trusted deputy, calling together 75 Herrin residents in whose homes and establishments liquor had been found, laid down the ultimatum that all bars must be removed from saloons.

Young was charged for the third time with felony today in a group of warrants sworn out by Alex Ruggeri, a baker of Herrin, charging larceny and assault. Ruggeri swore he was yanked from his bed by Klan raiders under Young, and forced to watch them enjoy a feast of his fresh bread and cheese.

BANK M'GAHAN ROBBER IS VICTIMIZED AGAIN

Bank robbers in Erie, Pa., did a "Red McGahan" Wednesday when they took advantage of a conference of policemen in the mayor's office to rob the Lincoln bank of $2,800.

This same bank was robbed by McGahan on Oct. 18, 1922, while police attention was diverted to a big fire a block away. McGahan obtained more money, however, his loot amounting to $4,500.

PNEUMONIA TIME IS NOW HERE

County Health Commissioner Tells How to Avoid it

"Beware of your health!"

This is the warning sent out Friday by Dr. J. J. Sutter, county health commissioner, in a statement to the people of Lima and Allen-co. This is the beginning of the "pneumonia season," Sutter declares, and from now until March the sickness and death rate in that disease will mount steadily.

Forty-three per cent of the deaths from pneumonia during the entire year occur in March, Dr. Sutter says. This is six times greater than in midsummer. Deaths are heaviest under 6 and over 60.

Many of the colds people are having now are mild forms of pneumonia, and most fatalities from the latter disease come from these cases if they are not cared for properly. During the season when the temperature ranges from 25 to 40 degrees Fahrenheit, respiratory diseases always develop. They are rare during below-freezing weather.

Most cases are found in March because the vitality of the victim has been lowered thru the winter months, to the point where he cannot stand the cold, blustery winds.

The pneumonia germs lodge in the victim long before the symptoms develop, Sutter says, sometimes as early as the fall, when people start to shut the doors and windows. People who do live in heated homes, without sufficient circulation of air, are more susceptible than anyone else.

The more one lives in heated rooms, the more care he needs to give the body.

The following preventative rules are given by Dr. Sutter as precautionary against the disease:

1. Keep clean; wear proper clothing; keep your feet warm and dry; guard against over-fatigue, exposure, sudden chilling of the body, contagion, over-feeding and neglect.

2. Avoid poorly ventilated buildings, street cars, and overheated surroundings. Keep the temperature of the room 65 to 68 degrees F.

3. Individuals with colds and influenza-like infections should stay at home, preferably in bed, and if the condition does not clear up quickly a physician should be called.

4. Avoid the careless cougher, the sneezer, and the spitter.

OHIO REPUBLICAN SOLONS ARE DIVIDED ON BONUS

WASHINGTON—Ohio Republican congressmen have split over the bonus question.

Led by Congressman John C. Speaks, Columbus, five other Ohioans went down to defeat in an effort to force the Republican leaders of the house to give the soldier bonus right of way over the proposed tax reduction plan at the Republican caucus last night. They were Representatives Fitzgerald, Dayton; Cable, Lima; Murphy, Steubenville; Foster, Athens, and Moore, Cambridge.

Representative Longworth, Cincinnati, majority leader, who voted for the bonus when it passed the house last congress, led the fight for postponement of action until tax reduction is completed.

Voting with Longworth were Representatives Stephens, Cincinnati; Kearns, Batavia; Cole, Findlay; Morgan, Newark; Begg, Sandusky, and Burton, Cleveland.

CASE DISMISSED

Bruce Lyons, 18, 1221 S. Metcalf st, was dismissed Friday morning by Judge Neil R. Poling on a charge of petit larceny of coal from the Erie railroad, preferred by railroad Detective Stem. After Lyons had told the court that he lost his job one week ago and needed the coal, he was lectured and told to stay away from the property of others.

STRONG SCHOLASTIC CAGING GAMES ARE SCHEDULED

Local Lightweight Gets Finishing Blow In Fast Bout With Tommy Bunch

Bream Counted Out When Hard Left Hook Catches Him On Chin

FORT WAYNE, Ind.—(Special to Lima News)—A crashing left hook, in the fourth round of the Tommy Bunch-Babe Bream contest at the Majestic theatre Thursday night, brought to an end a bout that had been furiously fought for three rounds. Bunch was the deliverer and Bream the receiver, and he went to the canvas for the count.

The end came very suddenly. They had been fighting from the very start evenly matched until the end of the third round. The bout was characterized with plenty of action and marked by many wicked exchanges. Bream was knocked down in the third and this in reality was the turning point of the fight; he never fully recovered from the blow, and came up in the fourth in anything but good condition. He responded gamely, however, but too groggy to stand long the terrific onslaughts of Bunch's rights and lefts, and after he had been rushed to the ropes several times, he finally went to the floor under the crushing left hook and stayed there until Referee Maxwell counted him out.

In this show Sammy Hess, the battler, was decisively beaten by a young boxer from Indianapolis named Hahn. The veteran stayed the limit, however.

Charley Maxwell refereed in his faultless style and gave the highest satisfaction.

South High's Tossers Clash Friday Night With Akron West Five

South Hi's basketball team will open its home season Friday night at the South floor, meeting Akron West, last year's Rubber City scholastic champs, who are doped by experts to take the championship of Akron again this season. The game is the hardest on the schedule of the local five.

Altho beaten at Bucyrus last Friday night by a 35-16 score the Burdette-coached cagers will attempt to stage a comeback, and show their backers that they have in them the makings of one of the best teams turned out by the south side institution in six years.

The squad this year is made up of players who have never before had varsity experience, with the exception of Captain Early, who has played only one year of varsity basketball, this being his second season. This year's team is composed of lighter men than former South quintets, but this handicap is overcome by their speed. In practice the team has shown some flashy basketball in passing and basket shooting, or offensive play, but it is weak on the defense. A few hard games will help greatly to remedy this fault.

Coach Burdette is undecided as to the lineup he will start against the Akron invaders tonight, but he is pretty certain that Captain Early will jump center, that Bauman will start at one of the guard positions, and that Thomas will hold down a forward berth when play commences. The other forward may be played by either Bowers or Biddle, and the other guard position by either Fry or Smith. The latter, however, was sick the fore part of the week and Thursday night was the first he has appeared for practice this week. Because of this fact Fry is more than likely to be the choice for the remaining defensive position. Still, Burdette has several other promising men he may use to start the contest.

South Hi athletic officials have secured as referee for the game Harold Fish, of Troy, former Ohio State football, basketball and baseball star. He is well known to Lima fans as the youth who pitched several games for the Lima Independents last summer. He is reputed to be as good in handling a basketball game as he is in playing, so the fans who see the game tonight will be assured of a competent official handling of the whistle. Holly Thomas, Lima basketball star, will do the umpiring.

Being the first home game of the season for South, and because of the caliber of the visiting team, the south side basketball court is expected to be filled to capacity.

A preliminary between the South and Central Junior class tems will commence at 7 o'clock, with the South-Akron West clash following at 8 p. m.

St. Rose Will Play St. John's Cagers At Delphos

St. Rose quintet will make its second out-of-town trip Friday to Delphos where it will meet the strong St. John's team of that city. According to reports from the North End High school Elmo Wells will be out of the lineup when the team takes the floor as he is still suffering from injuries received in last week's game.

During the past week Coach Young has been developing many plays around the probable mainstay of the game "Pablo" McNamara. According to reports received the game promises to be a fast one. The Delphos team up to the present have been victorious in all of their previous encounters. However the St. Rose team hopes to turn the table and come out on the long end of the score.

In order that the followers of the St. Rose team be given an opportunity to witness the game a special car has been chartered by the St. Rose management which will leave the Ohio Electric station at 6:[illegible] p. m. Reservations have been made in order to seat the Lima rooters who will accompany the team on its journey. Tickets for the special car can be obtained by seeing John Murphy, the St. Rose Manager. The game will start promptly at [illegible]:30 following a fast preliminary between the St. Rose Freshmen and the Best Evers of Delphos.

In Squared Circle

CLEVELAND—Jack Britton, former welterweight champion, will meet Fred Archer, British welterweight titleholder, in a 12 round bout in Canton, Ohio, January 21.

Champ Likely To Meet Tom Gibbons

NEW YORK.—It seemed highly probably today that Jack Dempsey would defend his world's heavyweight boxing title for the second time against Tom Gibbons of St. Paul, in a bout in the Metropolitan section in May or June.

Every one concerned has agreed to the fight except Jack Kearns.

Dempsey's manager and he gave every indication before leaving town that the program and balance sheet proposed by Tex Rickard would be satisfactory to him. Kearns departed for a short stay at Hot Springs, Ark. and said he would give his definite answer when he returns.

There is much speculation among the experts over Gibbons' chance. As the only man to have remained the limit with the champion he is accorded a fair chance by many if the bout is held here where an official decision would be given but if staged in New Jersey where decisions are illegal, his chances would be poorer.

Kearns said Rickard knew what his financial demands were and that if he met them the bout would be held, so judging from past utterances Dempsey's share will be $300,000.

(By HENRY L. FARRELL)

NEW YORK.—(United Press.)—Tommy Gibbons who stayed 15 rounds with Jack Dempsey in Shelby, Mont., last July will get another chance at the title here early next summer.

Tex Rickard late yesterday made a proposition which was accepted by Eddie Kane manager of Gibbons.

No contracts were signed, no date set and the champion hasn't agreed to the proposition but Rickard apparently was sure of his ground when he said "the fight is on."

The bout is sure to be staged in New York because of Kane's insistence that a decision be given at the end of the fight. The date was not discussed at the conference between Kane and Rickard but to fit in with the program Rickard has outlined it probably will be on Memorial Day or early June and will be staged in the Polo Grounds.

Rickard and Kane refused to discuss the terms, but it is known that Kane set a lot more than the promise that he carried out of shelby as his end.

Before leaving for Hot Springs, Jack Kearns, manager of the champion, [illegible] to be only casually interested in the bout.

GIBBONS TO BOX WILLS

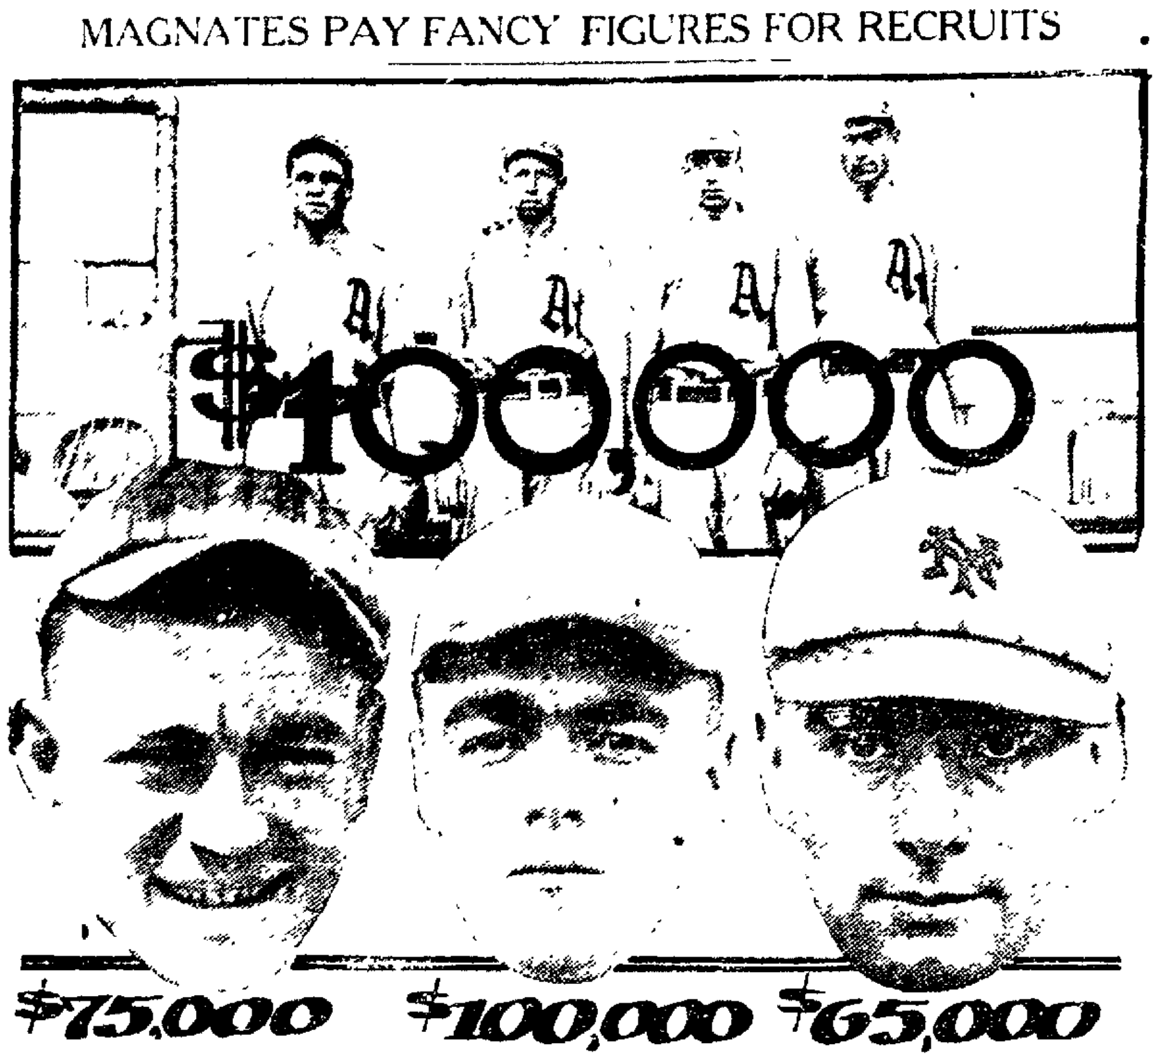

NEW YORK.—Simon Flaherty, proprietor of the Queensboro sporting club and its stadium seating about 25,000, announced Tuesday that he had offered Tommy Gibbons $[illegible] to meet Harry Wills in a 15 round decision bout either on May 1 or May 15. Wills has agreed to take a percentage of the receipts and has accepted, Flaherty said.

Wills has four fights scheduled the first in Rochester, N. Y., January 16 and the [illegible] in Newark, February 4.

Hoppe Wins His Game From Cochran

BOSTON.—(Associated Press)—Willie Hoppe, defending champion, ruled a favorite over Welker Cochran, challenger, as a result of the 124 point lead which the title-holder gained in the opening block of their 1,500 point challenge match for the world's 18.2 balk line billiards championship, which began last night. Hoppe won the opening block 500 to 376, finishing with an uncompleted run of 43. The balls were left in good scoring position along the left rail for the resumption of play tonight in the second bloc.

MAGNATES PAY FANCY FIGURES FOR RECRUITS

O'CONNELL KAMM BENTLEY

(BY BILLY EVANS)

How things have changed in baseball.

Back in years when Connie Mack's Athletics were winning pennants and world series his great infield was the talk of the baseball world.

The four players under Mack played a greater part in the team's success than Eddie Collins at second, Jack Barry at short, Frank Baker at third and "Stuffy" McInnis at first. It was a great infield, if not the greatest of all time.

These four stellar performers cost Connie Mack practically nothing. He recruited Eddie Collins from Columbia and Jack Barry from Holy Cross and developed them. "Stuffy" McInnis was a high school boy when he came to Mack from Haverhill, Mass. He was tutored in the art of playing first by Harry Davis, then guardian of that bag for the Athletics. Frank Baker was secured from the Reading team for a very nominal sum, perhaps $1,000.

When these four players reached the ranks of stardom rated as leaders at their position, the quartet was referred to as the $100,000 infield. The inference being that they would bring that much in the open market if Connie Mack cared to dispose of them.

The so called $100,000 infield was given much publicity because so great a sum was placed on their services.

Eddie Collins at the time was leading second sacker of the majors, Jack Barry was not far behind as a shortstop, McInnis was second to the great Hal Chase and Frank Baker held a position much like that of Babe Ruth. He was the home run king of the majors.

For these four great players it was believed Connie Mack could get $100,000 if placed on the market.

How things have changed in baseball.

Last season the Giants paid San Francisco $75,000 for Jimmy O'Connell, a minor league star. The same club turned over $65,000 to Baltimore for Jack Bentley, while the Chicago White Sox passed along $100,000 to San Francisco for Bill Kamm.

For a minor league third sacker, untried in the majors, $100,000 was handed over. Ten years ago the baseball scribes believed that one of the greatest infields in the history of the game was worth that amount.

At the recent major league meeting the report was that Charley Ebbetts had offered $275,000 for Rogers Hornsby of the St. Louis Cardinals. That certainly is a lot of money unless it's counterfeit, but the Brooklyn magnate says it was no bluff with him.

How things have changed in baseball!

AS A MATTER OF FACT

Being a Criticism of the Just and the Unjust In the World of Professional and Amateur Sports

BY HARRY BRADBURY

"How the mighty have fallen." Now comes word from the camp of the Giants that all clubs in both the National and American leagues have waived on the services of John Scott. He's the same John whose name was nicked to immortal pitching fame after his memorable game against the Yankees in the world's series games of 1922. It's the same John who pitched the great Ruth out without a hit in that historical game; from hero to ignominy in so short a time seems as if fate had dealt him a hard blow. McGraw wanted to include him in the deal for Wayland Dean, but the Colonels had no use for him. And there is something passing strange in the relegation of this sterling pitcher. He seemed to be anything but down and out thru last season. Here is his record. He showed in nine complete games and finished eleven, he completed 220 innings and is credited with winning sixteen and losing seven game. There were 630 batters who faced him. He pitched three shut-out games. Out of these 630 batsmen who tried for bingles he allowed 223 base hits; 65 bases on balls and had 79 strikeouts. The percentage of earned runs to a game was 3.89. This does not look as tho this sterling pitcher is thru.

PITCHED A GAME IN AUGUST

Scott began his major league career with the Boston Nationals, and even with a losing team he demonstrated that he could pitch. This was in 1921. About every manager in the league wanted him but Pat Moran got him. He was touted as the means to a pennant and everybody was jubilent. In spring training he developed muscular troubles and the best surgeons were consulted, they gave it as their opinion that he would never be able to pitch again. So he went to his home, after Moran had given him his unconditional release, which is Ridgeway, N. C. Scott is not the first pitcher in the big leagues who have recovered their pitching arm thru a stay in the south. He owns a tobacco farm but that year was a disastrous one for tobacco raisers and he went broke. But he has another career ahead of him and he applied to McGraw for a job. The little Napoleon, supplied him with expense money and saw that he had proper medical treatment.

It was in August that he told McGraw that he was ready to go in and he pitched his first in that season Aug. 2, against the Pirates. He stayed in two innings and allowed no hits. He had proven to McGraw that he had "come back," and after that he was one of the pitching aces of the team. But it was the world's series that he particularly distinguished himself. In the third game he played opposite to the ththen phenom Waite Hoyt. The Giants touched the Brooklyn boy for 11 safe bingles and won the game 3-0. The best the Yanks could do was 4 hits.

After all reputation is only a bubble.

FRANK BAKER TO THE BUSHES

Like Scott goes "Home Run, Run Baker." It would not be exaggeration to say that at one time when Frank Baker was transferred from the Athletics to the Yanks that he was about as popular as Babe Ruth. He was a member of that celebrated $100,000 infield of Connie Mack. That was enough for taking them as a whole they were at least one of the greatest that the game has known. Frank has been out of active ball for some time and now word comes that he has been unconditionally released. But Frank is different from Scott. He played ball a long time, long enough for "Father Time" to be in the pitching box against his home-run slugging, and so like all humanity he faded into insignificance. Frank Baker will most likely be heard of as a minor league manager. His services will be valuable, for aside from being a great ball player in his day, he can tell the young fellow how the game should be played. The whole baseball world will wish him well, whatever his vocation may be. He has been responsible for many a thrill in his day.

Worlds Series A Jonah To Many Players

NEW YORK—(Associated Press)—The granting of waivers on Long John Scott of the New York Giants emphasizes the hoodoo which has followed world's series heroes, particularly those under the management of John J. McGraw.

Besides being an important factor in the winning of the 1922 pennant, Scott was the pitching hero of that series which his team won from the Yankees. Other Giants who have starred in world's series only to be turned loose afterward include Casey Stengel, whose bat won the Giants' only two games of the last series, and Johnny Rawlings and Jess Barnes who made their records previously.

Perhaps Eddie Is Sorry

Had Eddie Gharrity, catcher of the Washington Nationals, known that Donie Bush would not manage the team in 1924, he probably wouldn't have jumped to the Industral League in the west that offers such fancy salaries to discontented major leaguers. Bush, as manager of the Nationals last year, was strong for Muddy Ruel as catcher, seldom giving Gharrity a chance. Eddie felt that he was being discriminated against and jumped at the chance to quit the majors.

RIGHT FIELD FOLLIES

True Baseball Stories for the Hot Stove League
By An Old Leaguer

We are not quite sure whether "constitutional fatigue" is characteristic of a good ball player, or whether one or the other are compatible; would hardly think so. But if you want to know who was really the laziest man that ever wore a spiked shoe, here he is. His name was Jim Kane; he's probably out of baseball now, at least if he isn't he should be.

Jim was formerly with the Sioux City team of the Western League. Strange as it may seem Jim was a wonderful hitter and fielder. He had a record for lifting them out of the lot about as often as most of the good hitters. But he did have the habit of taking things too easy, and he was constantly in hot water with the management and the fans.

Sioux City opened the season at home on this particular occasion, and it was in the first game on the old home grounds that he won the medal for being the laziest man in baseball. He was the first batter up in the first inning and he hit the first ball pitched clear over the fence a mile. When he got as far as first base he squatted comfortably on the bag.

Looking up to the first baseman, who couldn't understand such actions, he said in the most dulcet of tones, "Gee, I wish the season was over."

Cleveland Shaw Here To Battle Central Hi In Big Game Of Season

"Let's wallop Shaw."

That's the slogan at Central Hi these days with one of the biggest games of the season booked for Friday night in the up town gym against Cleveland Shaw, said to be among the ranking teams of Cleveland in basketball.

After losing to Springfield in a reversal of form that is yet unsolved, Captain Wetherill and his mates have gone to their work more determined than ever and will trot into the local floor this evening a much improved team.

A comeback, if such a thing may be so early in the season will be the aim of the Central lads. On the short side of a rather convincing score last week against Springfield, they must take Shaw into camp in this game to again get on the right side of things and prove that they are the rip tearing bunch of old.

During practices last week it seems rather probable that the red and green has gotten out of the hard luck basket shooting rut and will be more accurate Friday when it comes to hitting the rim.

The five has shown more aptitude for the game this week than ever before and should be ready to take it out on Shaw. Again Coach Thelbert is not yet certain of his starting lineup altho the probable five to start will be King, center; Captain Wetherill and Bayh of Farrell, forwards, Taylor and Hunter, guards.

Coach Oakley, Captain Momberger and the Shaw five arrived early Friday, looking fit for a hard game. All are husky and look to be in fine shape and as they intimated in the Cleveland papers early this week, ready to give Central a good drubbing.

Momberger, captain of the visitors, is the star of the team and said to be a wizard on the basket. He is lightning fast and should cause worry for Central guards. He was rated as one of the best high school gridders in the United States last fal'.

The game will be called at 8 p. m.

St. Johns Hi Plays Vaughnsville Friday

St. Johns High School basketball team will play the highly touted Vaughnsville high team Friday evening at St. John's gym.

Vaughnsville, with five wins and only one defeat so far this season credited them, are coming with the confidence of giving the Lima lads a set-back. To this purpose the St. John's boys are highly objective.

Coach Bowsher of St. Johns announced Thursday the following men would start the fracas: Capt. Kayser and Farley, forwards; Johnson, center, with Schrock and Henry, guards, Simons and Mumaugh will sub.

Vaughnsville's lineup has not been revealed, but it is certain whoever it may be, it will be a mighty difficult task to defeat.

A fast preliminary between Vaughnsville second team and the St Johns reserves will start at 7:30.

Ski - Jumping Slide Being Built

BRIAR CLIFF MANOR, N. Y.—(By Associated Press.)—In 30 motor trucks workmen Tuesday began hauling 150,000 cubic feet of snow to Briar Cliff Lodge from the Scarborough station of the New York Central railroad where it arrived yesterday in six gondola cars from Ihendora, a little lumber town in the Adirondacks.

Delivery of the snow at the club will complete the most spectacular effort ever made to supply the New York City public with thrills. It was shipped to make a ski-jumping slide and landing platform for the American Olympic skiing team at the public exhibition Sunday before sailing to compete in the Olympiad in France.

The task was to transport the flakes up the hill to the lodge two miles from the station. The snow will be spread in a long ribbon, starting with a width of five feet and gradually broadening to forty feet at the landing at the bottom of a hill, where it will be packed two feet deep. A huge stack of hay will be placed at the end of the snow slide to protect the fall of any skier traveling out of bounds.

Swimmers Break Records At Iowa City

IOWA CITY, Iowa — (Associated Press) — In an exhibition at the annual midwest A. A. U., swimming championships here Thursday night, Johnny Weissmuller, Illinois Athletic Club star, unofficially broke his own world's record of :18 in the 40 yard dash by one-fifth of a second.

Three A. A. U., records were shattered: Griffin of the University of Iowa took the 220 yard breast stroke in 3:15 8-10. He formerly held the record at 3:2[illegible] 2-5. Morse Lake of the University of Iowa plunged the sixty foot tank in :16 2-5, breaking the former record of :17 4-5, held by Hickox of the University of Iowa. Ivan Klingaman, of the University of Iowa broke his own A. A. U., record of :59 2-5 in the 100 yard free style by swimming the event in :57 4-5.

NEW MESSIAH OF MUSIC COMING

May Arise in America, Says Orchestra Conductor

MANY GENIUSES IN MAKING

Constantly on Watch for Gleam of Greatness

SAN FRANCISCO — (Associated Press) — The time is at hand for a new messiah of music and perhaps he will arise in America, in the opinion of Alfred Hertz, conductor of the San Francisco Symphony Orchestra, formerly a director of Wagnerian opera in New York and a musician of international repute.

There are today many composers who are almost geniuses," Hertz told The Associated Press. "But Richard Strauss is the most recent to be accorded universally the name of genius. The new messiah will come; we are ready for him."

Every now and then there appears on a San Francisco Symphony program, tucked in between widely known compositions of the classical or modern school, some number bearing the notation, "Played for the first time." The composer perhaps is a San Franciscan who has been brought to Hertz's attention; at any rate he usually is an American of the younger generation, a student or a teacher who is becoming articulate. This is the conductor's way of encouraging native composition where it seems to him feasible for presentation on a symphony program. Local artists also occasionally are given their chance to appear as soloists.

LACKING GENIUS

Hertz constantly is reading manuscripts, hoping that maybe some day he will uncover a gleam of greatness. "The new genius is as likely to be produced in this country as any where," he says. "In the amalgamation of artistic influences from everywhere, the native composer can profit by all the trends of the Old World."

The conductor would not venture a prediction on the type of work such a genius would present, whether it would be ultra-modernistic or a reaction to the classics. Hertz agreed that modern music was so diverse, moving in so many directions, that its tenderness could not be summed up in a phrase. Being Catholic in his musical taste, he is no opponent of modernism, save in its most extreme forms, and his programs often are divided between numbers by brilliant members of the new schools and the symphonies of Mozart, Beethoven, Brahms, Schubert, Schumann and Tschaikowski.

Despite intensified commercialism of America, the hectic pace of life and the din of traffic, many compositions by Americans are "calm and idealistic," said Hertz. "America is providing the musical centers of today," he added.

Referring to his recent trip to Europe, Hertz explained that the economic chaos of the old musical capitals of Berlin and Vienna had impaired the concerts to a pitiable degree. He found that musicians did not even have time to rehearse, since they must holdd own half a dozen jobs to eke out an existence.

"They are coming to America to stay. Musical appreciation here has increased remarkably in recent years."

RETURNS RICH AFTER ABSENCE OF 30 YEARS

HONOLULU — A story of riches made in Alaska during an absence of nearly 30 years was revealed recently when Thomas Emslie returned to live the remainder of his life in the city of his birth and enjoy his fortune of $200,000. He brought with his his Eskimo wife and three children.

Emslie left Hawaii on a whaling ship in 1895 and was penniless. He remained aboard the vessel three years, during which he had learned much about navigation and the fishing and fur business. His next venture was to purchase a schooner with borrowed money and his success enabled him to purchase larger boats from time to time.

As his prosperity continued he decided to remain permanently in Alaska, but recently he had an attack of 'island fever," a longing to return to the place of his birth and, with his family, came to Hawaii. He plans to build a home and live a life of ease.

NEW YORK — (Associated Press) Stock prices displayed a firm tone at the opening of today's market, buying being influenced by the desire of the house Republican caucus to take early action on the tax reduction bill. The advance spread abroad over the list with Baldwin, Davison Chemical and General Electric rising a point or more in the first few minutes of trading. There were a few heavy spots.

Strength of the general list was used to cover heavy profit-taking in the low-priced rails, New Haven, Wabash preferred A, and Missouri Pacific preferred each dropping a point. Oils were strong, Houston, Marland and Tidewater rising 1 to 1 3-8. Goodyear preferred, Willys-Overland preferred and Manati Sugar all advanced a point or more while American Express and Tobacco Products were heavy. Foreign exchanges opened lower. French francs established another new low record at 4.51 cents.

With but few exceptions, prices of industrials and specialties were carried during the active trading of the forenoon, but railroad shares were supplied steadily, many such stocks losing a point or more. Sugars, chemicals and oils were the strongest groups with considerable activity in various low-priced specialties, the action of the latter suggesting pool operations.

American Bank Note moved up four points and Commercial Solvents B, Tidewater Oil, Wickwire Spencer Steel, Sears Roebuck, General Electric and Case Threshing Machine preferred 2 to 2 1-2 points each. Call money opened at 4 1-4 per cent.

STOCKS DECLINE AS PRICES SOAR

Standards and Independents Remain Under Normal

Oil stocks declined further yesterday as advances in crude oil were announced from the eastern and Wyoming fields. While at the same time the American Petroleum Institute published figures showing a net decline in production of 43,700 bbl. for the preceding week. This brings a net decline of 17½ per cent over peak production as of September. Wyoming oil was marked up 20 to 50 cents a bbl. new quotations ranging from 70c to $1.82, while further increases in Texas ranged from 10 to 25c a bbl.

Despite this, both the Standard oils and strong independents such as Texas and Sinclair, with others, are staying far below normal. The only steadying is occurring in the companies which have advanced from $5 to $10 a share. Ohio Oil is selling around $100 basis for the old stock, when its range was nearer ... Standard of Indiana is one that is selling around the top, a quotation of $65 comparing with $70 for the old stock, peak on which was $125 before the spring cash. Sinclair and Texas are $10 under a year ago and with present outlook the oils look a most conservative speculation.

BOY, LEFT ORPHAN BY AN ACCIDENT, DECLARED HEIR

Robert C. Harron, 8, son of ... and Capitola Harron, killed in automobile accident at Bellefontaine recently, is the sole heir at ... to estates left by the decedents, documents filed in probate court today show.

Total value of the property is $..700. Of this sum $1,800 belongs to the estate of the father and the remainder to the mother. F. G. ...rk was appointed administrator, under $2,000 bond.

SEARCH OF MOHLER FARM FAILS TO RESULT IN CLUE

Belief that Mrs. Katherine Mohler, 68, Bluffton farm woman who has been missing for nearly a fortnight has never left the county was reiterated by authorities Friday. Search of the farm which was renewed Thursday developed nothing new, Sheriff Crosson said. Neither is the information he sought at ... satisfactory.

William Mohler, 80, husband of the woman, who has offered a $500 reward for information concerning her, was questioned closely Thursday but stuck to his story.

HUSBAND AND WIFE SHOT AT YOUNGSTOWN

YOUNGSTOWN—Police are holding a man here for the shooting of ... and Mrs. Frank Tearconero in their home early today, following a quarrel.

The woman, who was shot thru the abdomen, submitted to a Caesarian operation, and is in a critical condition.

Her husband was shot thru the right leg.

ADVANCE SCORED IN WHEAT

Prices at Chicago Are Lifted by Upturns Abroad

LIVERPOOL RISE CONTINUES

Corn on Slight Decline—Oats Register Gains

CHICAGO — (Associated Press) —With foreign prices for grain continuing to advance and making values in the United States closer to a world parity, wheat bulls here had an advantage at the opening of today's market. It was pointed out that Liverpool quotations had gained rapidly on Chicago since the beginning of the year and were again up sharply this morning. Opening strength in the corn market tended also to give firmness to wheat. After starting 1-8 to 3-8c higher, May $1.09 1-8 to 1.09 1-4 and July $1.07 3-8 to 1.07 1-2, wheat reacted a trifle, but held near to the initial range.

In view of the fact that but little corn was being offered to arrive and that receipts were small for this time of the year, the corn market opened with an upward tendency. On the advance however, speculative selling developed and led to a setback in prices. The opening which varied from unchanged figures to 3-8c higher, May 77 3-8 to 77 1-2, was followed by moderate declines.

Oats took their cue from wheat rather than corn. Starting unchanged to 1-8c higher, May 46 1-8 to 46 1-4, the oats market continued firm.

Provisions lacked support despite an advance in the price of hogs.

SUGAR MARKT

NEW YORK — Raw sugar less active and firm, 5,000 bags of spot Cuban were sold at 6.53 duty paid.

Raw sugar futures prices at midday showed advances of 6 to 8 points. Fine granulated unchanged at 8.25 to 8.60. Refined futures nominal.

WOOL MARKET

BOSTON — The Commercial Bulletin will say tomorrow:

Demand for wool has been somewhat spotty, but the undertone of the market is exceedingly strong and the tendency of wool values is upward, in fact some descriptions are quotably dearer.

The trade is awaiting the opening of heavy weight goods by the leading factor, which is expected within the next fortnight. Advances in the price of goods over a year ago are expected to be slight.

The Commercial Bulletin tomorrow will publish the following quotations.

Ohio and Pennsylvania fleeces—Delaine unwashed 55 at 55 1-2; fine unwashed 48 at 49; half blood combing 55; 3-8 blood combing 54 at 55.

Perhaps some bald headed congressman will start a movement to reduce the tariff on hair tonic.

* * *

If there is any conspiracy behind his move to reduce taxes most of the citizen taxpayers will be glad to get in on it.

* * *

Perhaps the reason for all this unrest in Saxony is that the saxophone was invented over there.

* * *

Plans for the formation of an "intelligent bloc" in congress may fall thru because of the lack of qualified members.

* * *

"It is the real thing if she still loves him after she hears him snore," pens Sam Hill in the Cincinnati Enquirer. "And love must run deep if he still maintains his first affection after he discovers her supposedly real hair laying on a chair," says Ralston in the Piqua Call. We figure the real test comes when both of them try to agree as to which one will spend the week's pay check.

Rumors that Kaiser Wilhelm is the writer of the successful Bok peace plan are probably slightly exaggerated.
